Made in CHINA

A photograph showing the underside of a black, rectangular vibration plate. The plate is positioned on a blue surface. A yellow measuring tape is placed vertically along the left edge and horizontally along the bottom edge, indicating the dimensions of the device. The plate features four circular feet at the corners and two silver-colored handles on the sides. A small, rectangular white label is affixed to the center of the plate, and its location is highlighted by a red rectangular box. The text "Label Location" is printed in red above the box.
