

正面

QUICK BUTTON COMMAND

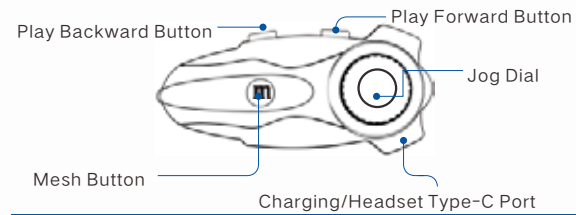

XGP
Motorcycle Bluetooth Headset X10

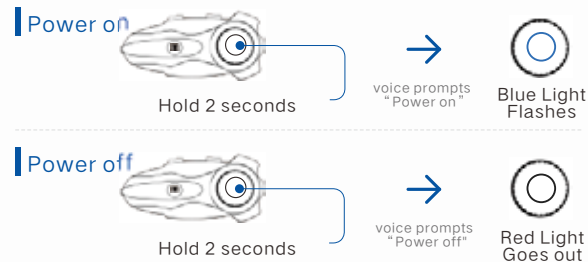

Tips:
1.To ensure the sound quality and normal audio output, please plug the speaker wire into the TYPE-C jack all the way till there is a "click" tone.
2.Due to the wzaterproof finish for the charging connector, the Type-C Jack will be much longer, so please use our TYPE-C cable for charging.

1、Product Overview

2、Basic Function

Battery Prompts

Low Battery Prompt

(Please use the DC 5V adapter to charge. It will flash RED light while charging and turn BLUE when fully charged.)

Factory Reset

(After factory reset, power off and restart the device. The power button will flash red and blue alternately. At this point, you can directly connect the device to your phone via Bluetooth without entering pairing mode again;)

3、Phone Call

Connect Phone (Power off status)

(The X10 unit can simultaneously connect two phones)

Answer call

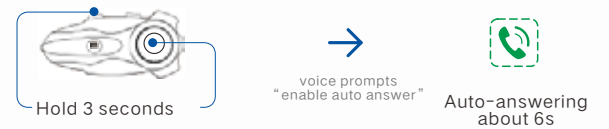

End call

Reject call

6、Universal Pairing

2-Way Bluetooth Intercom (Power on Status)

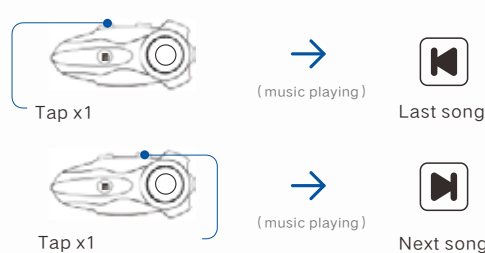

(To connect with XGP other styles intercom, just enter the pairing mode together when the red and blue light flash on both units, wait till the blue light slowly flashes then you can talk back and forth.)

5、Music Function

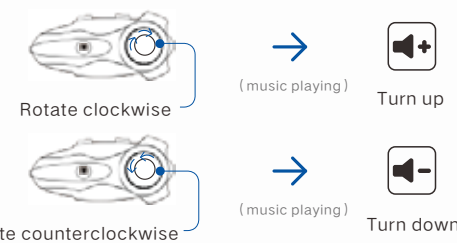

Music Play/Pause

Music Switch

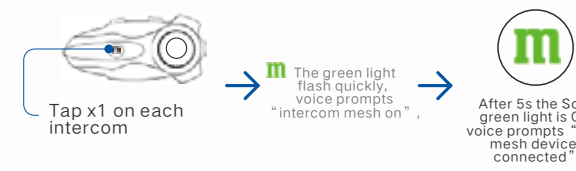

Volume Modulation

- There's a tone "du" while adjusting volume. When the volume is at the maximum the tone turns to "di", and at the minimum it turns to "du"
- The X10 has Audio Multitasking feature. So when have a intercom talk and music playing simultaneously, rotate the Jog Dial directly to adjust the music volume, and pause the music playing then rotate the Jog Dial to adjust the intercom volume.)

4、Mesh Intercom Function

Mesh Intercom Function (Power on Status)

Exit Mesh Intercom

Recover Mesh Intercom

Turn off Mesh Intercom

- The XGP X10 can support up to 10 people to have a mesh intercom talk. The "N" presents numbers 1 to 10.
- Anyone who want to exit the mesh intercom, just click the "M" button, at this time others can still keep connected and talk; if he wanna re-enter the mesh intercom talk, click the "M" button again to join in.
- If someone beyond the range and disconnect from the mesh intercom talk, it will automatically reconnected if he come back to the mesh group talk within 5 minutes, or have to click the "M" button again to re-join in.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
