

## Buttons & Ports

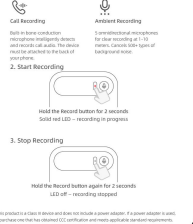

**1. iOS**  
Simply attach the case to the back of your iPhone. iPhone's built-in MagSafe magnets hold it in place - no magnetic ring required.

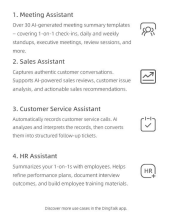

**3. Power on / off**  
 Hold the Record button for 3 seconds to power on, hold for 6 seconds to power off. Or plug in the charging cable – the device powers on automatically.

1. Records calls and ambient audio – switches automatically

QwenNote A1 is an AI-powered device that captures your conversations and applies AI to become your intelligent office companion at work.

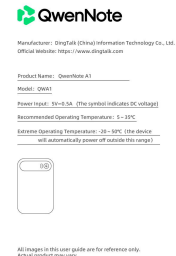

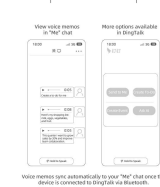

### 1. Real-Time Translation

Supports real time bidirectional translation across 8 languages: Mandarin, Cantonese, English, Japanese, German, French, Russian, and Korean – no need to manually switch direction. Speech is *automatically* recognized and translated in real time.

Hold the AI button to start a voice memo.
