**After reviewed the technical requirements, is the device capable of supporting the installation of Kaspersky software?**

☐ Yes, go to Item 3.

☒ No. In this case, the rest of the items do not apply. The device cannot support installation of Kaspersky software

**Item 3. Connectivity Capabilities:**

| # | Physical Interface | Purpose | Justification <sup>1</sup> |
|---|--------------------|---------|----------------------------|
| 1 |                    |         |                            |

| # | Wireless Interface         | Purpose                              | Justification <sup>1</sup>                                                                                         |
|---|----------------------------|--------------------------------------|--------------------------------------------------------------------------------------------------------------------|
| 1 | Wi-Fi<br>Murata LBEE5PK2AE | Connection with smart local devices. | No installation of external software possible, Port blocked for software download. No root access. Only custom UI. |

After the review of this items, the device:

☒ Cannot support installation of any cybersecurity or anti-virus software on the covered list.

☐ Potentially can operate with any cybersecurity or anti-virus software on the covered list – additional third-party proof is provided to demonstrate compliance with requirements as of 2.911(d)5(i),(ii) – “Proof of Compliance with Covered List Software Requirements” of this document applies
