

Specification Sheet Size: 80 × 120 mm

Stone Speaker Quick Start Guide 1.One toggle switch controls the main power on and off; one touch button powers the unit on/off when pressed and held for 3 seconds, and plays/pauses music with a short press. After power-on, the matching remote control can pair with multiple Bluetooth speakers. 1.1 For single speaker setup and operation, set all speakers to the OFF position by default.To turn on the speaker, slide the toggle switch from OFF to ON. A power-on prompt tone will sound, and the Bluetooth LED indicator on the speaker will flash blue.The speaker will then enter Bluetooth searching mode for device pairing. Search and connect to the Bluetooth device named creative. After successful connection, the flashing blue LED will stay solid blue.When connecting multiple speakers: first power on one speaker and connect it to your mobile phone (keep other speakers powered off). Once the first speaker is paired successfully, turn on the remaining speakers, which will automatically connect to the first speaker. 1.2 The toggle switch has three gears: Leftmost: Infrared remote control pairing (a "beep" sound will prompt successful pairing) Middle: Power off Rightmost: Power on 1.3Launch your media player and press PLAY to start playback. You can adjust music playback and volume via your connected device or the supplied remote control.Note: Each speaker is equipped with a dedicated matching remote control. 1.4If no Bluetooth device is detected and connected, the speaker will automatically power off after 30 minutes. You can turn off the speaker via the remote control, or press and hold the touch button for 3 seconds to enter standby mode. 1.5 To resume music playback, press the Power On button on the remote control to automatically enter pairing mode and reconnect to Bluetooth-enabled devices. Alternatively, toggle the switch from OFF to ON, the speaker will automatically enter pairing mode for reconnection.	1.6.To power on via remote control, slide the toggle switch from OFF to ON first.If the remote fails to turn on the speaker (caused by battery protection mode), toggle the switch from OFF to ON to reactivate the device. The product and remote will then function normally. 2. Remote Control Button Functions 2.1 ON: Power on the Bluetooth speaker OFF: Power off the speaker and enter standby mode VOL+: Volume up VOL-: Volume down PREV: Previous track NEXT: Next track PLAY/PU: Play / Pause 1H / 2H / 3H: 1-hour / 2-hour / 3-hour timer Press the timer button once with a prompt tone to activate timing; press the same button again with another prompt tone to cancel the timer. 3. Charging via USB It takes about 5–6 hours to fully charge the speaker with a USB cable.The charging indicator on the right side of the speaker lights up red during charging, and turns green when fully charged. 4.Unplug the USB Type-C charging cable after charging is complete. 5. Solar Panel Charging For first-time use, place the speaker in direct sunlight for four consecutive days to fully charge the battery. 6.Place the solar Bluetooth speaker in an area with maximum sunlight exposure during the day. 7.The solar panel shall receive at least 3–4 hours of direct sunlight every day.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
