Technical Specifications

Product Name	Power Bank
Model	P102
Battery Type	Lithium Polymer
Battery Capacity	10,000 mAh
Rated Capacity	5,800 mAh (5V - 2.4A)
Cell Capacity	38.5 Wh
Energy Efficiency	≥75%
Input	5V–3A / 9V–2A / 12V–1.5A
Output	5V–2.4A / 9V–2.2A / 12V–1.5A 15W
Wireless Output	(MAX)
Operating Temp.	0°C –35°C
Dimensions	96 × 68 × 18.5 mm

How to Use

1. Auto-start charging —plug in your device and charging will begin automatically.
2. To pause or resume output, double press the power button during charging.
3. Press the power button once to display the remaining battery level on the LED indicator.
4. The power bank allows wireless charging. If your device is compatible with wireless charging, place onto the magnetic ring and charging will begin.

Safety Instructions

1. Check the labels on the power bank before first use to ensure correct operation.
2. Only use chargers with CCC certification that meet standard power adapter requirements.
3. This power bank supports simultaneous charging of multiple devices. Choose cables carefully —do not share a single cable across multiple devices at once as this may cause damage.
4. If the display shows low battery while charging other devices, recharge the power bank promptly.
5. If the battery swells, stop use immediately —continued use poses a fire hazard. Replace with the same or equivalent type only.
6. Do not expose the unit to direct sunlight, open flames, or other high-heat environments.
7. Do not leave the power bank in a vehicle parked in high temperature conditions.
8. Use only in environments between 0°C and 35°C.
9. Keep clean and dry. Do not use chemical cleaners, solvents, or damp cloths to clean the unit.
10. Store away from moisture and corrosive materials.
11. After extended storage, run several full charge/discharge cycles to restore optimal performance.
12. Keep out of reach of children—this is not a toy.
13. Stop use immediately if the power bank or any connected device shows signs of swelling or overheating.
14. If liquid contacts skin or eyes, rinse thoroughly with clean water and seek medical attention immediately.
15. Please dispose of the waste power bank in accordance with your country's environmental regulations.

Warnings

⚠ Please read the following warnings before use.

- Do not disassemble, crush, fold, or throw the unit into fire.
- Discontinue use immediately if skin blistering or irritation occurs.
- Do not place in high-temperature environments.
- Do not use the device after it has been exposed to water.

Hazardous Substances Table:

Component	Lead (Pb)	Mercury (Hg)	Cadmium (Cd)	Hexavalent Chromium Cr(VI)	Polybrominated Biphenyls (PBB)	Polybrominated Diphenyl Ethers (PBDE)	Bis(2-ethylhexyl) Phthalate (DEHP)	Benzyl Butyl Phthalate (BBP)	Dibutyl Phthalate (DBP)	Diisobutyl Phthalate (DIBP)
PCB Assembly	X	O	O	O	O	O	O	O	O	O
IC Chips	X	O	O	O	O	O	O	O	O	O
Plastic Parts	O	O	O	O	O	O	O	O	O	O
Wiring	O	O	O	O	O	O	O	O	O	O
Other Parts	O	O	O	O	O	O	O	O	O	O

Warranty applies to: China (mainland) and designated sales regions. | Standards: GB31241; GB4943.1

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
