**Preamble:**

ZF Friedrichshafen AG ("**ZF**") operates, amongst others, directly and through certain of its subsidiaries, its ADAS business. Amongst others, the ADAS business includes the following product: The automotive radar AC1000 ("**Product**"). ZF has agreed to carve-out the ADAS business – including the Product – from its remaining business and to sell it to Harman Holding GmbH & Co. KG ("**Harman**"). Specifically, the carve-out and sale to Harman is to be implemented in two steps, namely (1) by transferring the ADAS business via asset deals to new separate entities initially wholly owned by ZF, and (2) subsequently by ZF selling and transferring the separate entities to Harman.

The ADAS business currently holds certain certificates, particularly various radio frequency certificates covering various countries/markets.

Now, these radio frequency certificates need be transferred to ZF Capri NewCo GmbH.

**Declaration:**

**ZF Autocruise France SAS** and **ZF Capri NewCo GmbH**, represented by the undersigned authorized signatories, hereby declare the following:

**1. Subject of this Declaration**

This declaration relates exclusively to the Product. Its purpose is to facilitate the transfer of radio frequency certificates for the Product from ZF Autocruise France SAS to ZF

- Lifecycle management

4. **Scope Limitation**
