

Multi-function Wireless Charger

Product Instruction Manual

Products

This product is a multifunctional wireless charger, featuring a smart chip that supports simultane-ous charging for three de-vices: mobile phones, smart watches, and earphones. It bo-asts aninteresting hidden design for charging watches and ea-rphones, a Bluetooth surround sound speak-er, and a magne-tic suction that automatically rotates the phone charging pos-ition, serving as aphone holder, With its high efficiency, stable performance, and instant charging capabilities, youcan easi-ly enjoy the convenience of wireless charging technology. Ad-ditionally, it supports wirelesscharging for other electronic devices that comply with the Qi standard.

Product Features

Button Functions

1. Four physical buttons: Power ON/OFF button
 Play/Pause button Plus button Minus button

	Short Press	Long Press
	No reaction	No /OFF
	Play/Pause	No reaction
	Next song	Lower the volume
	Previous song	Increase the volume

2. Two mechanical buttons:

- Mobile phone charger rotary button: Touch this button to rotate the phone charging areacounterclockwise by 90 degrees; Touch this button again to rotate clockwise 90 ° andreturn to the original position.

- Show button: Touch this button to slowly extend the watchand earphone charger; Touchthis button again, they will slowly shrink to hide.

- Light button:A short press can switch the light color. There are three light colors: orange, yellow, and white.

3. Charging indicator light/Phone charging decorative light: When the power is plugged in, thelight will turn on for 2 s-econds and then turn off, When charging the phone, the light will keep for 30 seconds and then turn off.

4. Bluetooth device name: BT

Product parameter

Model: R10
Iuput: QC/PD 9V=3A Min
Output: 5W/7.5W/10W/15W(Smart Phone)
Output: 5W(Earbuds)
Ouput: 2.5W (Smart Watch)
Rated input power ≥ 25 W
Size: 100x100x193mm
Weight: 475g
Materials: ABS+PC
Charging Distance: 3-6mm
Operating Frequency: 115-205kHz, 300-360kHz
Battery Capacity: 3.7V 1200mAh

FAQ and Solution

1. Is the phone not charging?
A. The phone is not aligned with the sensing area or the receiving coil is not installed correctly.
B. Battery mode is only available for BT devices. If you need to charge a device such as a cell phone, you need to turn on the power first.
2. Charging is hot?
It is normal for the receiving coil or transmitter board to become warm during wireless charging.
3. Cell phone charging intermittent?
A. The charging current of the adapter is not enough or the voltage is unstable, please use QC3.0 fast charging head to charge.
B. The charging position is too partial, electromagnetic induction is not good, you can adjust the charging position.
4. Charging is slow?
The phone itself or the external receiving coil allows different sizes of wireless charging current or the standby power consumption is large when the phone is charging, it is recommended to reduce the standby program of the phone.

Compatibility

1. Smart Phone

For Apple: iPhone 17、iPhone Air、iPhone 17 Pro/Pro Max、iPhone 16、iPhone 16 Pro、iPhone 16 Pro Max、16 Plus、iPhone 15、iPhone 15 Pro、iPhone 15 Pro Max、15 Plus、iPhone 14、iPhone 14 Pro、iPhone 14 Pro Max、iPhone 14 Plus、iPhone 13、iPhone 13 Pro、iPhone 13 Pro Max、iPhone 13 mini、iPhone 12、iPhone 12 Pro、iPhone 12 Pro Max、iPhone 12 mini、iPhone SE (2 Generation)
(Note: Magnetic charging of cell phones is only applicable to iPhone 12/13/14/15/16 series)

2. Smart Watch

Apple Watch Series 11、Apple Watch SE 3、Apple Watch Ultra 3、Apple Watch Ultra/1019/8/7/6/5/4/3/2 Series

3. Earbuds

AirPods 2、AirPods 2 (with wireless case) / AirPods pro / AirPods pro2 / AirPods 3 / AirPods 4、Samsung Galaxy Buds, Buds+, Buds Pro, Buds Live; Soundcore Liberty Air 2, Air 2 Pro, 2 Pro
(All TWS earphones with wireless charging)
Note: Adapt to all devices that support wireless charging

Cautions

1. Please do not pull the power cord strongly to avoid the power cord breakage or fall off.
2. Do not disassemble or put into fire or water to avoid short circuit and leakage.
3. Do not use the product in severe heat, humidity or corrosive environment to avoid damage to the circuit leakage.
4. Please do not give children to play to avoid unnecessary accidents.
5. When using fast charging, please use qualified QC3.0 charging power adapter and fast charging cable, otherwise it may cause charging instability.
6. Please do not put metal debris or magnetic cards on the charging board, which may cause damage or abnormalities to the charge.
7. If you encounter the receiving coil or transmitting board overheating during use, in stopping resulting charging, please remove the charging product, wait for it to cool down, and then try charging again..

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This equipment should be installed and operated with a minimum distance of 20cm between the radiator and your body.
This equipment complies with the FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
