

Test Positions

Left Cheek (Separation distance of 0mm) 	Left Tilt 15 Degree (Separation distance of 0mm) 
Right Cheek (Separation distance of 0mm) 	Right Tilt 15 Degree (Separation distance of 0mm) 
Front Side (Separation distance of 5mm) 	Back Side (Separation distance of 5mm) 
Left Side (Separation distance of 5mm) 	Right Side (Separation distance of 5mm) 

 A photograph showing the top side of a black electronic device. The device is positioned vertically, with its top edge facing the camera. It features a black back cover with a silver-colored metal frame. The top edge of the frame has two circular ports. The device is resting on a white, stepped plastic stand. The background is a yellow wall with a white grid pattern.	 A photograph showing the bottom side of the same black electronic device. The device is positioned vertically, with its bottom edge facing the camera. It features a black back cover with a silver-colored metal frame. The bottom edge of the frame has two circular ports. The device is resting on a white, stepped plastic stand. The background is a yellow wall with a white grid pattern.
Top Side (Separation distance of 5mm)	Bottom Side (Separation distance of 5mm)
 A photograph showing the top side of the same black electronic device. The device is positioned vertically, with its top edge facing the camera. It features a black back cover with a silver-colored metal frame. The top edge of the frame has two circular ports. The device is resting on a white, stepped plastic stand. The background is a yellow wall with a white grid pattern.	 A photograph showing the bottom side of the same black electronic device. The device is positioned vertically, with its bottom edge facing the camera. It features a black back cover with a silver-colored metal frame. The bottom edge of the frame has two circular ports. The device is resting on a white, stepped plastic stand. The background is a yellow wall with a white grid pattern.
