

# World's Smallest Golf Cart for Cracker Barrel

Revision Date: 20 May 2026

## Instruction Manual

### Charging:

1. Before using for the first time, charge the internal battery of the World's Smallest Golf Cart with the included charging cable.
2. Turn the power switch on the under side of the Golf Cart to the OFF position.
3. Insert the USB-C end of the charging cable into the charging port on the under side of the Golf Cart. Insert the other end of the charging cable into a charging block or PC.
4. While charging the Golf Cart, the LED indicator light will turn red. The LED indicator will turn off when charging is complete. Charging time is approximately 20 minutes.

### Battery Installation:

1. Have an adult remove the battery cover on the remote control.
2. Insert 2 "AAA" 1.5V batteries in the correct (+)(-) position.
3. Replace the battery cover and screw.

### Important Battery Information:

- Batteries should be replaced by an adult.
- Do not charge non-rechargeable batteries.
- Supply terminals should not be short-circuited.
- Ensure batteries are inserted with the correct polarity.
- Spent batteries should be removed from the product.
- Rechargeable batteries should be removed from the product and charged under adult supervision.
- Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries, or new and used batteries.
- Do not dispose of batteries in household waste or fire, as batteries may explode. Dispose spent batteries safely at local authorities or approved waste sites.

Keep this packaging as it contains important information.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
