

STILL-01 User Manual

Brand: OBasis

Product Name: Still Wireless Charger

Model: STILL-01

FCC ID: 2BWOQ-STILL093X

Applicant: UBQCO, Inc.

1. Product Overview

STILL-01 is a wireless charging transmitter designed to charge compatible wireless charging devices when connected to a suitable USB-C power adapter.

The product has no user-serviceable parts. Do not open, modify, repair, or disassemble the product.

2. Package Contents

- Still Wireless Charger x 1
- User Manual x 1

Power adapter and cable inclusion depend on the final sales package. Use only a compliant USB-C PD power adapter and cable that support the rated DC 15 V / 3 A input.

3. Product Specifications

Item	Specification
Product Name	Still Wireless Charger
Model	STILL-01
FCC ID	2BWOQ-STILL093X
Input	USB-C PD, DC 15 V / 3 A
Wireless Output	Up to 25 W max, depending on the receiving device and power adapter
Operating Environment	Indoor use only
Hardware Version	V1.0
Software Version	V1.0

Note: Actual charging power may vary depending on the receiving device, device temperature, alignment, phone case, and power adapter.

4. How to Use

1. Place the wireless charger on a stable, flat surface.
2. Connect the charger to a suitable USB-C power adapter.

3. Place a compatible wireless charging device centered on the charging surface.
4. Make sure there are no metal objects, magnetic cards, keys, coins, or foreign objects between the charger and the device.
5. Remove the device from the charger when charging is complete.

5. Safety Instructions

- Use the product indoors only.
- Keep the product away from water, liquids, and high humidity.
- Do not use the product if it is damaged, cracked, wet, or unusually hot.
- Do not place metal objects, magnetic cards, RFID cards, keys, coins, or other foreign objects on the charging surface.
- Do not cover the charger with thick fabric, paper, or other materials during operation.
- Do not use the product near excessive heat sources.
- Do not drop, crush, open, burn, or disassemble the product.
- Keep the product away from small children.
- If you use an implanted medical device, consult your physician and the medical device manufacturer before using wireless charging products.

6. Troubleshooting

If the device does not charge:

- Check that the power adapter and cable are properly connected.
- Make sure the power adapter meets the rated input requirements.
- Reposition the receiving device at the center of the charging surface.
- Remove any metal objects or thick cases from the receiving device.
- Allow the charger and receiving device to cool down if either becomes too warm.
- Try another compliant USB-C power adapter and cable.

If abnormal heat, odor, noise, deformation, or damage occurs, stop using the product immediately and disconnect it from power.

7. Care and Maintenance

- Disconnect the product from power before cleaning.
- Clean the surface with a soft, dry cloth.
- Do not use liquid cleaners, solvents, abrasive cleaners, or aerosol sprays.
- Store the product in a dry, cool place when not in use.

8. FCC Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

9. FCC Warning

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

10. FCC Class B Digital Device Statement

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

11. FCC Radiation Exposure Statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.
