

75x80mm

25W Magnetic Wireless Charger (K33-D)

Before using this product, please read this guide to ensure safe and proper use. For additional information about the product, please contact the manufacturer.

Product parameter description

Product Name: 25W Magnetic Wireless Charger
Input Parameters: 5V/3A, 9V/3A, 12V/3A, 15V/3A
Input Port: USB-C
Executive Standard: GB 4943.1-2022
Compatible Phones: Devices compliant with Qi wireless charging protocol
Operating Temperature: -20°C ~ 60°C (Do not use beyond this temperature range)
Certifications: CE, RoHS, FCC, Qi 2.2

packing list

1. Host * 1
2. Magnetic attraction plate * 1
3. Instruction manual * 1
4. Charging kit * 1

LED indication

Power on status: The colorful lights on are constantly on
Standby mode: Colorful rashmore always on
Charging status: Green light breathing
Full state: Colorful rashmore always on
Alarm status: The red light keeps flashing

Functional Description

Magnetic wireless charging component
Colorful ambient light
Type-C
Suction cup component
Rotating locking mechanism

Installation method

1 Remove the protective film from the adhesive base at the bottom of the product and stick it onto a clean and dust-free dashboard for a secure fit. Tip: After pasting, please wait for 24 hours to ensure strong adhesion.

2 Rotate the knob clockwise to remove excess air and secure the suction cup.

3 Adjust the supporting connecting rod to the optimal position for easy access and placement.

4

1. For MagSafe compatible Iphone (Iphone 12 or above) and protective case, simply connect them directly to the bracket-

2 For other brands of mobile phones or protective cases, please install the metal ring first; Attention: Before pasting the metal ring, be sure to clean the phone or protective case you need to paste;

Attention: Place the metal ring at the location where you need to stick it, press firmly, and wait for 24 hours After use;

1. Can be directly connected;

Iphone 12 or The above models; Compatible with MagSafe The protective shell;

2. Other brands of mobile phones;

Other brands of mobile phones; Other phone cases; metal ring

Attention: Please avoid placing the metal ring inside the phone case, as it may weaken the magnetic attraction.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement
The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
