<Manual>

1. Do not attempt to disassemble or modify any parts inside the product except for what is specifically indicated in the manual.

2. Do not use the product in any other liquid, this product is not designed to be waterproof.

3. If you feel discomfort when the product, please immediately disassemble and remove the product.

4. To avoid electric shock, please make sure there is no water on your hands when handling or installing the product.

5. Do not place the product near a heat source or expose it directly to the sun.

6. Do not place the product in an environment where there is a strong electromagnetic field. Note: do this may cause the product to malfunction.

Technical Specifications

Model: ZT058

Bluetooth version: 5.0

Speaker specifications: 40mm

Transmission range: 10M

Rated power: 20mW

Earphone battery: 3.7V 200mAh

Charging bin battery: 3.7V 200mAh

Play time: 2-3H

Charging time: 1.5H

Speaker impedance: <32Ω

Speaker impedance: 32Ω±15%

Product Pairing Description

Power ON

1. Take out the earphone from the charging case, automatically turn on the earphone, enter the Bluetooth search mode.

2. Long press the earphone multi-function key 3s (the earphone is shut down outside the case)

Power OFF

1. Put the earphone into the charging case, and the charging case is 3.7V charging.

2. Long press the earphone multi-function key 5s (the earphone is turned on outside the case)

3. When there is no device connection, automatically shut down in 5 minutes.

Pairings

1. Press and hold the multi-function keys of the two earphones for about 3s and take out the earphones from the charging chamber and enter the TWS pairing mode. The main ear white light flashes slowly with the second ear 5s white light flashes once.

Operation And Response

Function	Operate	Voice prompt	Light
Power ON	Press and hold the multi-function key 3s	Power on	White light flashes slowly
Power OFF	Press and hold the multi-function key 5s	Power off	The main ear white light flashes slowly
Connection	Press and hold the multi-function key 3s	Connected	White light flashes slowly
Disconnection	Press and hold the multi-function key 3s	Disconnected	White light flashes slowly
Factory setting	Press and hold the multi-function key 3s	Power off	White light flashes slowly
Single ear use	Press and hold the multi-function key 3s	Power on	White light flashes slowly
Volume up	Press and hold the multi-function key 3s	Volume up	White light flashes slowly
Volume down	Press and hold the multi-function key 3s	Volume down	White light flashes slowly
Answer call	Press and hold the multi-function key 3s	Answer call	White light flashes slowly
End call	Press and hold the multi-function key 3s	End call	White light flashes slowly
Play/Pause	Press and hold the multi-function key 3s	Play/Pause	White light flashes slowly
Next song	Press and hold the multi-function key 3s	Next song	White light flashes slowly
Previous song	Press and hold the multi-function key 3s	Previous song	White light flashes slowly
Fast forward	Press and hold the multi-function key 3s	Fast forward	White light flashes slowly
Fast backward	Press and hold the multi-function key 3s	Fast backward	White light flashes slowly
Power on	Press and hold the multi-function key 3s	Power on	White light flashes slowly
Power off	Press and hold the multi-function key 3s	Power off	White light flashes slowly

Charging bin function

Function	Operate	Response	Light
Power ON	Press and hold the multi-function key 3s	Power on	White light flashes slowly
Power OFF	Press and hold the multi-function key 5s	Power off	White light flashes slowly

Volume down	Press and hold the multi-function key 3s	Volume down	White light flashes slowly
Answer call	Press and hold the multi-function key 3s	Answer call	White light flashes slowly
End call	Press and hold the multi-function key 3s	End call	White light flashes slowly
Play/Pause	Press and hold the multi-function key 3s	Play/Pause	White light flashes slowly
Next song	Press and hold the multi-function key 3s	Next song	White light flashes slowly
Previous song	Press and hold the multi-function key 3s	Previous song	White light flashes slowly
Fast forward	Press and hold the multi-function key 3s	Fast forward	White light flashes slowly
Fast backward	Press and hold the multi-function key 3s	Fast backward	White light flashes slowly
Power on	Press and hold the multi-function key 3s	Power on	White light flashes slowly
Power off	Press and hold the multi-function key 3s	Power off	White light flashes slowly

FCC STATEMENT

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates noise and can interfere with frequency range and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. The device has been evaluated to meet general RF exposure requirements. The SAR value is 0.01 W/kg, which is well below the FCC limit of 1.6 W/kg.
