

(Jiaxing Mengji Group Co., Ltd.)

FCC ID: 2BWW3-000X

Difference declaration

Model list:

Group 1 models: 001A, 001B, 002A, 002B, 003A, 003B, 004A, 004B, 005A, 005B, 006A, 006B, 007A, 007B, 008A, 008B, 009A, 009B, 010A, 010B, 011A, 011B, 012A, 012B, 013A, 013B, 014A, 014B, 015A, 015B, 016A, 016B.

These models differ only in appearance and dimensions; their internal circuitry and external adapters are identical, and the total power is 150W.

Group 2 models: 001C, 005C, 007C, 008C, 009C, 010C, 011C, 012C, 013C, 014C, 015C, 016C. These models differ only in appearance and dimensions; their internal circuitry and external adapters are identical, and the total power is 200W.

The only difference between Group 1 and Group 2 lies in the power ratings of the internal TEC (thermoelectric cooler) and the external adapter—150W for Group 1 and 200W for Group 2—while all other circuit schematics and PCB layouts are completely identical.

Model A dimensions: 58*43*26.5cm

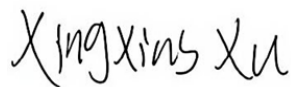

Model B dimensions: 82*57.5*25cm

Model C dimensions: 88*73*22cm

The fifteen series adopt different color configurations, with detailed colors of each series listed below.

001: Dark Grey + Brown, 002: Mocha Brown, 003: Dark Grey + Light Grey, 004: Brown + Light-Grey, 005: Beige + Light Grey, 006: Light Grey + Dark Grey, 007: Dark Grey, 008: Light Grey, 009: Dark Grey, 010: Dark Grey, 011: Light Grey, 012: Beige + Light Grey, 013: Dark Grey, 014: Dark Grey + Light Grey, 015: Mocha Brown

Due to the different power levels of the first group and the second group, one model was selected for testing from each group. The tested models were 006B and 001C.
