## REMOTE CONTROL

## DISCLAIMERS

A diagram illustrating the components included in the product package. It shows a StreamOBox S1 device (1), a Quick Guide booklet (2), a remote control (3), a power adapter (4), two AA batteries (5), and an HD-out cable (6).

- 1 STB
- 2 Quick Guide
- 3 Remote Control
- 4 Power Adapter
- 5 Battery
- 6 HD-OUT Cable

A diagram of the StreamOBox S1 device showing its rear panel ports. The ports are numbered 1 through 6: AV OUT (1), DC 12V (2), USB 2.0 (3), HDMI (4), LAN (5), and OPTICAL (6). There is also a TF card slot labeled 6.

- 1 AV OUT
- 2 DC 12V
- 3 USB 2.0
- 4 HDMI
- 5 LAN
- 6 USB 2.0
- 6 TF

A diagram showing the setup process. An HDMI cable connects the StreamOBox S1 to the back of a television. A power cable connects the StreamOBox S1 to a standard wall outlet.

Brand/Trade Mark: STREAMIO  
Model: S1  
Product Name: TV BOX  
Power(in standby)<1W-(in use) Max 7.5W  
Power Supply:DC 12V --- 1.0A  
USB: DC5V --- , 450mA  
Made in China

A photograph of the StreamOBox S1 remote control. It features a silver faceplate with a central navigation pad, various function buttons like Back, Home, Play/Pause, Stop, and Mute, and a numeric keypad at the bottom.

### Pairing guide

Long press the Back and Home button at the same time until the blue light flashes quickly, then release. This means the remote control has entered pairing mode. Wait for a few seconds without pressing any buttons until a message pops up on the screen that the remote has paired successfully.

### Do more on your TV with your voice

Search for shows, get recommendations, even control your TV – faster — with your voice. Ask Google for a little help on your big screen.

Precautions for Use

This device should be installed and operated with a minimum distance of 20cm between the antenna and all persons.

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation

SAFETY INFORMATION

!

CAUTION!

NOTICE:

To prevent fire and electric shock, do not expose this device to rain or moisture. In order to avoid any possible risk of electric shock, never attempt to open the unit. In case of the unit breaking down, repair of the unit should be carried out by qualified technicians. No part of this unit should be repaired by users.

WARNING!

Place the device in a well-ventilated location to prevent accumulation of internal heat.

Protect the device from high temperatures, humidity, water and dust.

Do not place any objects that might damage your unit near it (e.g. liquid filled objects or candles).
