

Label Drawing

Model: MT520G

FCC ID: 2BX39-MT520G

01 Complete label artwork

All markings on the proposed label must be shown in the box below.

FCC ID is displayed at the size of 4 points or larger.

Batteries are removed so end users inevitably see the label when inserting them before use.

<Label durability>

The paper used for printing is art paper, and strong commercial-grade adhesive is used, so the label will not easily peel off or fade during the product's lifespan.
