Do not place metal debris or magnetic cards on the charging panel.
Do not place this product near fire sources or corrosive environments.
Do not disassemble, repair, or modify the product by yourself.
Keep out of reach of children to prevent accidents.

Diagram and Parameters

Product Name: 3-in-1 Aircraft Wireless Chargere
Product model: TD513
Input parameters: PD 5V/2A 9V/3A
Output parameters: Magnetic 15W Max/Earphone 5W/Watch 2.5W
Working distance: 3-6mm
Charging port: Type-c
Working frequency: Coil 1 (Phone):115-205kHz
Coil 2(Earbuds): 115-205kHz Coil 3(Watch): 300-350kHz
Conversion efficiency: 80%
Weight: 267g
Size: 122 * 162mm
packing contents Wireless charging speaker * 1 Data cable * 1
Product manual * 1 Exquisite packaging box * 1

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following

measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.
