FCC Caution ---------- 6

Step 1: Activate the Device

1. Open the rear cover, remove the battery, and peel off the insulating film.
2. Insert the battery with the positive (+) side facing up. After the green light flashes briefly, close the rear cover. Installation is complete.

Step 2: Download the App

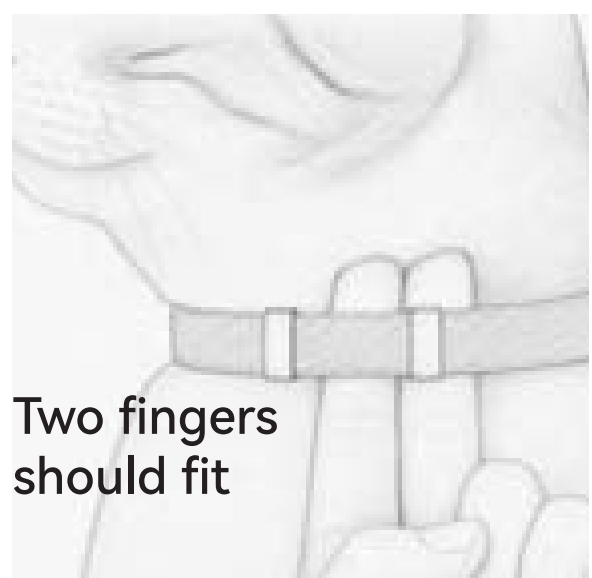
1. Download the SiiPet app and register an account.
2. Open the app and follow the on-screen instructions to connect your Smart Pet Tag.

Download on the App Store

GET IT ON Google Play

Step 3: Attach the Device

1. Use with the Official Collar (sold separately)
Attach the Smart Pet Tag to the collar loop,
then adjust the collar to fit your pet's neck.



2. Other Attachment Options

Take the separate ring included in the package and use it to attach the Smart Pet Tag to the attachment loop on a third-party collar or harness.

Attach to a third-party collar

Attach to a harness

FCC Caution

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15

of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
