NO:139-11

FCC

Federal Communications Commission (FCC) Statement. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
This device may not cause harmful interference, and this device must accept any interference received, including interference that may cause undesired operation. Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide Reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of:1 the following measures:
• Reorient or relocate the receiving antenna.
• Increase the separation between the equipment and receiver.
• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
• Consult the dealer or an experienced radio/TV technician for help.
Warning: Changes or modifications made to this device not expressly approved by may void the FCC authorization to operate this device.Note: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment.
RF exposure statement:
This device complies with FCC RF radiation exposure limits set forth for an uncontrolled environment. The device is installed and operated without restriction.

Stunts Ladybug

Fly over the eaves and run on the walls

1 With successful frequency pairing, use the remote control to control the ladybug forward and backward.

2 With successful frequency pairing, use the remote control to control the ladybug to turn left and right.

3 When the ladybug won't walk in a straight line, adjust the fine-tuning buttons on the remote control to bring the ladybug back to walking in a straight line.

4 Press the button in the center of the remote control individually to turn the wings and feet on or off

(L/R)rim button

Fully charge car before use!

The ladybug contains a rechargeable battery. Connect the USB plug to any standard USB port and insert the micro connector into the rear of the ladybug next to the mode switch. To recharge the light, the micro connector must be inserted. When the light is being charged, a full battery charge will last for approximately 15 minutes of wall driving, and longer for driving on the floor or other horizontal surfaces.

-Do not mix old and new batteries.
-Do not mix alkaline, standard (carbon-zinc), or rechargeable batteries.
-Cleaning and Maintenance:
This toy is made of plastic and is not suitable for use in wet environments. Do not use water or other liquids to clean it. The packaging must be retained since it contains important information.
-Warning: This toy produces flashes that may trigger epilepsy in sensitised individuals.

Dual mode 2

Access two modes with a rear switch - Wall and Floor modes - for this RC ladybug to move on all smooth surfaces including walls, ceilings, windows, mirrors and doors.
