

Thanks for choosing DEWBU!

⚠ The DEWBU 12V heated apparel can only be paired with 12V batteries or can be connected to car cigarette lighter using the DEWBU 12V special cable.

Let's get your vest set up

Your smart heated vest supports two ways of operation.

Option 1: Smart App Control (Via Bluetooth)
Connect your vest to your smartphone for a fully customized heating experience.

Scan to Download & Learn:
Scan the QR code on the right using your phone's camera to download the official App and watch a quick 30-second video on how to set up and control your vest.

(Note: Please ensure your smartphone's Bluetooth is turned on before pairing.)

OR

Option 2: Manual Control (Physical Buttons)
Follow the Guide:
Please proceed to the next section of this manual for step-by-step instructions on button operations, temperature levels, and stealth mode settings.

Follow these steps to set up your vest

1. Charge the battery

Fully charge the battery before first use.
Charging takes approximately 4 hours with an 18W charger, 7 hours with 10W, 12 hours with 5W, or 22 hours with 2.5W.

2. Locate the battery pocket

Locate the battery pocket on the vest. It is located on the liner vest directly beneath the pocket.

Follow these steps to set up your vest

3. Connect the power cable to the battery

Insert the power cable plug into the DC port on the top of the battery. Push the plug all the way in to ensure a secure connection. Then place the battery into the built-in battery pocket and zip it closed.

Note: If the vest has not been used for more than 28 hours, the battery protection mode will activate automatically. Simply unplug the power cable from the battery and plug it back in before turning it on.

4. Turn on the power

Long-press the DEWBU button for 5 seconds to turn the power ON/OFF. The power button will initially light up red (HIGH setting). Quickly double-tap to turn the indicator light off (Stealth Mode); short-press to turn it back on and cycle through heat settings.

FCC Caution:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used exposure condition without restriction.

Control Guide

Hand Heating Control

Short press to turn on/off the two hand heating zones.

Master Switch

Turn on/off power for all 6 heating zones, switch heat levels, or activate stealth mode.

Back Heating Control

Short press to turn on/off the neck, mid-back, and lower back heating zones.

Heating Status Examples

Hand Zones at High Heat

Back and Neck Zones at Medium Heat

Standby Mode

With hand and back heating off, the vest stops heating (standby). Tap any button to restart. To fully power off (not standby), press and hold the button for 5 seconds.

Stealth Mode

Turns off all indicators while maintaining heat.

Technical Specifications & Support

- Product Name: DEWBU Heated Apparel
- Input: 12V DC
- Compatibility: Only use with the provided DEWBU 12V battery or special 12V vehicle cable.
- Manufacturer: DEWBU Co. Ltd.
- Support: support@dewbu.com
- Website: <https://www.dewbu.com>
- Package List: 1x Heated Apparel, 1x Battery, 1x Charging Cable, 1x Instruction Booklet.

Battery Specification

- Model: DB-0125
- Battery Energy: 10.8V, 54Wh (5000mAh)
- USB Type-C Output: 5V === 1.5A (8700mAh)
- USB Type-C Input: 5V/9V/12V === 3A Max
- DC Output: 12V === 1.5A (4300mAh)
- CAUTION: Risk of Fire and Burns. Follow Manufacturer's Instructions.
- ATTENTION: Risque d'incendie et de brûlures. Suivez les Instructions du fabricant.

Cleaning & Maintenance

- Do not use this product with very young children (0-3 years).
- Please disconnect and remove the battery before washing.
- Place the power cable into the built-in pocket and zip it up to prevent damage.
- Hand wash is recommended. If machine washing, please use a laundry bag to prevent snagging.
- Do not use bleach or cleaning solvents, as they may deteriorate the insulation of the heating elements.
- Hang to dry only. DO NOT iron, wring, twist, or dry clean.
- Do not insert pins into the garment, as this may damage the heating system.

Storage Instructions

- When not in use, remove the battery from the vest.
- Allow the garment to cool down before folding for storage.
- Do not crease the garment by placing heavy items on top of it during storage.
- Store in a cool, dry place.
- Examine the garment and heating elements frequently for signs of wear or damage. If damage is found or the product does not work properly, contact us with your original proof of purchase. Do not attempt repairs.

Safety Warnings

WARNING: To avoid the possibility of heatstroke, disconnect the power supply when moving to an environment with a significantly higher temperature.

- Vulnerable Persons: This appliance must not be used by persons insensitive to heat or other vulnerable persons who are unable to react to overheating.
- Medical Use: This appliance is not intended for medical use in hospitals.
- Children: Children under the age of three must not use this appliance. Children over the age of three should only use the product if the controls have been pre-set by a parent or guardian, and the child has been adequately instructed on how to operate the controls safely.
- Extended Use: If the clothing is used for an extended period, adjust the control to the LOW (Green LED) setting.
- Heat Fatigue: Stop use immediately if you recognize signs of heat fatigue, heat stroke, dizziness, or any discomfort.
- Moisture: Do not use the garment if it is wet. Ensure the product is completely dry before switching it on.
- Skin Care: Do not wear the heating zones directly against your skin. Check your skin regularly to avoid low-temperature burns.
- Modification: Do not attempt to disassemble, modify, or repair any part of the product by yourself.
- Safety Disposal Notice: Contact us with your original proof of purchase if the product has been misused. Do not attempt repairs.
