

POWER & NETWORK SETUP

A5 AI BOX

Power Key  Config Key 

Power on: Toggle the back [Power Key]. The eye lights up.

Power off: Toggle the back [Power Key]. The eye turns off.

Network config: Single-click the back [Config Key] 3x to re-enter config mode.

APP DOWNLOAD & USAGE

1.Scan the QR code or search "Tuya" in your app store to download the app.

2.Enable WiFi on your phone and connect to a 2.4GHz WiFi (not supported for 5GHz-only or mixed 2.4G/5G networks with the same name).

3.Power on the device for network setup. Confirm the TuYa App is installed, then log in or register.

4.Open the "TuYa" App and tap the "+" icon in the top-right corner of the homepage.

5.Select "Add Device" and choose your product as prompted.

6.Connect to the same Wi-Fi network as your phone.

7.Added successfully. Network setup done. The device will prompt: "I'm online, let's chat!"

APP Usage & Device Updates

Role Switching & Basic Features

1. Open the App and tap an online device to enter edit mode.

2. On the edit page, adjust volume, check battery, view chat history, switch roles, etc.

3. On the edit page, tap Switch Role. Create a custom role and save it. The device will switch to this new role.

4. In the Role Switching menu, you can select a pre-set system role to change the device's role.

Note: (Both default and custom roles have memory and learning capabilities, and can create shared memories with users.)

Device Firmware Update

1. With the device online, go to the device edit page. Tap the top-right settings menu, scroll down, and tap Device Update.

2. If an update is available, confirm the version and update details, then tap Update.

3. The update takes 3–10 minutes. Once finished, it will show "You're on the latest version."

Component & Conversation Modes

Component Functions

Button Control:

1. Wake-up Conversation Mode (Default)

- Wake Words: "Hey Tuya" / "Hi Tuya" / "hello Tuya"
- Single-click right button: Start/Interrupt conversation.
- Double-click the button: Toggle the petting function on/off (works in both wake-up and free conversation modes).

2. Free Conversation Mode

- Triple-click the button to enter free chat mode (device says: "Let's chat freely").
- Interrupt and start new topics anytime.
- Single-click the button to mute/start a new conversation.
- Triple-click again to return to wake-up mode.

3. Notes

- Touch inactive during recording.
- Exit stops recording; reactivate via wake word or button.
- Reactivate after 30 seconds of silence (wake word/button).
- Screen off after 6 mins; press button to wake.

Petting Function:Auto-enabled on power-up.

Approach within 1 cm of the module to trigger: indicator light on, petting active, and random audio plays.

Note: The stroking function is disabled during conversation.

Motor Swing Function: When activated by touch, the motor swings the tail, while triggering the corresponding facial animations and petting audio.

Voice Command Control

In conversation mode, issue the corresponding voice commands to the device to complete quick adjustments. The adjustment command will take effect with your next utterance after the device receives it.

Function	Command Examples
Volume Adjustment	"Your voice is too loud / too soft." "Set the volume to 80%."
Check Battery/Volume	"What's the current volume?" "What's the current battery level?"
Switch Voice/Role	"Switch to the XX role."
Check Battery/Volume	"Can we talk in English?"
Adjust Speech Speed	"Set speech speed to 50." "Set speech speed to 80."
End Conversation	"Shut up.", "Stop talking." "I don't want to chat anymore."
Screen Control	"Turn off/on the screen." "Open/close your eyes."
Play Story/Song	"Tell me a story.", "Play a song."
Pause Playback	"Pause playback.", "Stop playback."
Emotion Trigger	"I'm so sad today.", "I'm angry." "I'm very happy."

Charging & Storage

Package Contents

- 1 x Device
- 1 x User Manual
- 1 x Type-C Data Cable

Charging Requirements

- 1.Connect the charging cable to the device's charging port. Use a certified charger (rated 5V 1A and CCC certified) to charge the device (charger sold separately).
- 2.A full charge takes approximately 6 hours (may vary slightly due to various factors).
- 3.During charging, the indicator light next to the Type-C port turns yellow to indicate charging in progress, and green to indicate charging complete.

4.Do not charge continuously for more than 8 hours. Ensure supervision during charging; disconnect before leaving unattended for extended periods.

Storage Precautions

Do not use, store, or charge the device in direct sunlight, near heat sources, or in high-temperature environments. For daily use, keep the device in a cool, dry place.

Safety & Cleaning

Safety Precautions

- 1.This product contains a built-in lithium battery. Operate the device only within the temperature range of 0°C to 40°C. Do not place it in extremely high-temperature environments. Keep it away from fire sources and other heat generators. Do not expose it to open flames. Avoid impact, shock, squeezing, or puncturing. Do not disassemble, repair, or modify the device by yourself. Do not place the battery in an extremely low-pressure environment, as this may cause the battery to explode or leak flammable liquids and gases.
- 2.Do not charge the device using a charger in wet locations (e.g., near sinks, bathtubs, or showers).
- 3.Adult supervision and guidance are required when children use the device. Before use, inspect the device for intact appearance, proper installation, and normal operation. If any issues are found, contact customer service.
- 4.Dispose of packaging properly to prevent suffocation hazards for infants and toddlers. Do not use the device if it or its accessories are damaged or broken. Do not clean the device while it is powered on or charging.
- 5.Inspect the device regularly. If any abnormality is detected in the charging process or cable, stop using it immediately to avoid risks of electric leakage, short circuit, or fire.

Cleaning Method

- 1.This product is not waterproof. Do not wash or submerge it in water.
- 2.Do not use harsh cleaners containing salt water, hot water, bleach, strong acids, or strong alkalis.
- 3.Power off the device before cleaning. Wipe the surface gently with a soft cloth dampened with tap water and wrung dry. After cleaning, press out excess moisture with a dry paper towel and let it air dry completely. Do not allow liquids to enter ports or gaps.
- 4.For stubborn stains, contact official customer service for additional cleaning guidelines.

Product Information

Product Name	AI box
Product Model	AI box
Product Material	Electronic components, plastic movement
Battery Capacity	1000mAh
Charging Input	5V-1A
Battery Voltage	3.7V
Maximum Power	5W
Battery Type	Lithium battery
Place of Origin	China
Applicable Standard

Date of Purchase:

Warranty Information

- 1.This product is manufactured under strict quality control. Within one year from the date of purchase and acceptance, free in-warranty repair services are provided by the after-sales service center for non-human-induced performance failures, upon verification and confirmation.
- 2>Returns/exchanges only at the point of purchase.
- 3.Please keep this warranty card safe and avoid smudging or altering it.
- 4.For after-sales terms, contact the seller/point of purchase.

Exclusions from Warranty Coverage

- 1.Expiry of the warranty period.
- 2.Damage caused by human factors, such as physical damage or liquid ingress.
- 3.Unauthorized disassembly or modification (including rooting/flash operations) by non-authorized personnel.
- 4.Damage caused by force majeure.
- 5.Resale of the product.
- 6.Use of the product in violation of any laws or our user agreement.
- 7.Malfunctions or damage resulting from issues unrelated to the product's inherent design, manufacturing, or quality.
- 8.For additional exclusions, refer to the official after-sales warranty policy.

Special Battery Notice

- 1.Built-in 3.7V battery (non-removable). Contact service if damaged.
- 2.The charger must be used by an adult or under adult supervision.
- 3.Regularly inspect the charger's cable, plug, casing, and other components. Stop use immediately if any damage is found, and do not resume use until repaired.
- 4.Power off the device and disconnect it from the charger before cleaning.
- 5.This product is sold without a power adapter. If using a power adapter, purchase a CCC-certified adapter that meets standard requirements for use with this device.

Disclaimer

Thank you for purchasing this product. The content herein concerns your safety, legal rights, and responsibilities. This statement may be updated; please follow the product's official social media channels for the latest information.

By using this product, you are deemed to have carefully read, understood, acknowledged, and accepted all terms of this disclaimer and safety guidelines. You agree to use the product only in appropriate environments and for legitimate purposes, and assume full responsibility for all consequences of its use. You consent to comply with these terms, including health and safety precautions, and all related product policies and guidelines. Failure to do so, or any misuse that results in property loss or personal injury, will absolve the product manufacturer of all liability.

When using third-party products, services, or applications ("Third-Party Content") through this device, you must adhere to the relevant policies, rules, and agreements of the respective third party. In the event of any conflict between such third-party terms and this disclaimer, the terms of this disclaimer shall prevail. FCC Warning Statement: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
