Technical specifications

Model: YX04
Bluetooth version: V6.0
Transmission frequency: 2.402G-2.480G
Connection distance: 10M
Supported protocols: HFP, A2DP, AVRCP, AVDTP
Music playback time: 6-7H
Standby time: about 120H
Battery capacity: 3.7V 100mAh
Charging input: 5V 500mA
Charging time: 1-2H
Working environment: -10-50°C

Charging

1. Charging glasses:
Charge glasses with Type C charging cable
During charging, the red LED is always on
The red light goes off after charging is completed
2. Power reminder:
When the power is lower than 10%, the red light flashes
Please recharge your glasses in time.

Power-on pairing

1. Press and hold the multi-function button for about 2 seconds to turn on the glasses. The red and blue lights flash alternately when turning on.
2. After turning on, it automatically enters pairing mode, turn on the Bluetooth of the mobile phone, search for the Bluetooth device YX04, and click to connect. After the connection is successful, the blue light flashes once every 5 seconds.

Shut down

1. Manual shutdown: Press and hold the multi-function key 5 seconds and turn off the glasses. The red light flashes 3 times when shutting down.
2. Automatic shutdown: If the glasses are turned on without bluetooth pairing, they will automatically shut down after 5 minutes; if the bluetooth connection is disconnected for 5 minutes, the glasses will automatically shut down.

Automatic connect back

When you use it again, the glasses will automatically connect to the device after turning on.

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
