2 IN 1 Wireless Speaker

Real Bass Sound + —

Quick Start Guide

Control panel diagram and connectors.

1. Button O: Power On/Off. The main switch to turn the speaker on and off. Short press to play/pause.
2. Button M (Mode): Switches between the available playback modes: Wireless (Bluetooth), USB, TF Card (MicroSD), and AUX input. Press and hold to turn the speaker's lighting on or off.
3. Next (+) Button: Short press: increases volume. Long press: skips to the next track.
4. Previous (–) Button: Short press: decreases volume. Long press: returns to the previous track.

5. Protective Cover: Silicone cover protects against dust and moisture.
6. AUX Input Slot: Connects audio from external devices using a 3.5mm cable.
7. TF Slot (MicroSD): Reads MicroSD cards up to 64GB (FAT32) to play MP3 music files.
8. USB Slot: Reads USB flash drives up to 64GB (FAT32) to play MP3 music files.
9. Charging Port: Charges the device via a USB Type-C cable.
10. Indicator LED: Shows the device status (e.g., powered on, charging).

Charging the unit

Charge the device by connecting the USB Type-C cable to a 5V DC USB power source (computer or certified 5V/1A wall adapter, not included).

Charge fully before first use (approx. 3.5 hours). Unplug the charger once the battery is fully charged.

Wireless BT connection

When you turn on the speaker, it automatically enters Bluetooth mode. To pair it, simply activate Bluetooth on your device (smartphone or tablet) and select “KS7943” from the list. The speaker will emit a notification when a successful connection is established.

You must enable Bluetooth on your mobile device.

Dual connection via TWS

When both speakers are turned on, they automatically enter TWS mode.

Note: This function is only available between two units of the same model that support TWS connectivity. The TWS function is only available in Bluetooth mode and in areas free of obstructions.

Magnetic union

Thanks to their powerful magnetic connection, you can keep them together as a single compact unit for powerful sound, or instantly separate them to create an immersive stereo sound experience with True Wireless Stereo (TWS) technology.

Precautions for use

- 1) Water and electricity are a dangerous combination. Do not use the product in humid environments (e.g., in the bathroom or near a shower or swimming pool).
- 2) This speaker is not intended for use by children; children should be supervised by an adult to ensure they do not play with the appliance.
- 3) Store the appliance in a cool, dry place away from sunlight.
- 4) Do not place heavy objects on top of the appliance.

Battery warning

This product contains a built-in lithium-ion battery. Do not disassemble, puncture, crush, or expose to fire or temperatures above 60°C (140°F). Do not dispose of in household trash — recycle according to local regulations.

Important

- When charging, ensure the USB cable is connected correctly.
- Keep the unit away from heat, fire, and moisture. Do not use or store it where it will be exposed to direct sunlight.
- To prolong battery life, do not leave the unit charging for more than 8 hours.
- The maximum Bluetooth connection range is approximately 10 meters, depending on obstructions and battery level.

FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This manual is for reference only. Due to continuous improvements, features and design are subject to change without notice. Product does not include storage devices (memory cards / USB drives) or power adapters.

Model: KS7943

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement in portable exposure condition without restriction.
