FCC ID: 2BXFI-K1

Made in China

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Location of the FCC ID and warning label on the outer packaging

Charging operation

1. With a USB charging line plug it in the USB port on the side of the charging box, then plug the charger into the charging box.
2. Earpiece: put headphones in charge box for automatic charging. The headset indicator light is on when it is charged; when fully charged, the indicator light will go off.

Precautions

1. Charge in a safe environment. When the charging box is full, please disconnect the USB charging cable as soon as possible to avoid damage from long-time charging.
2. When playing music, please adjust the music to an appropriate volume to avoid hearing damage at high volume for a long time.
3. Try to avoid using the headset in places with interference sources, otherwise it may affect the signal.
4. Kind Reminder: when using this Bluetooth headset to listen to music or make calls, please adjust the volume appropriately to avoid excessive volume affecting your hearing.
5. Regularly clean the charging contact points of the headphones to avoid poor contact affecting charging.
6. For first-time use, please remove the blue protective film from the charging contacts.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
