

Quanzhou Juhui Electronics Co.. Ltd.

No 288, Changxing Road, Huoju Industrial Park, Licheng District, Quanzhou, Fujian.
China

Antenna specification

1. Overview

This antenna is an 13.56MHz RF antenna suitable for our company's transmission and reception chips and modules, characterized by good performance and low cost.

2. Antenna Parameters

Antenna material: copper foil

Antenna Type: Internal Antenna

Frequency range: 13.56MHz

Polish ratio: 1.5

Input impedance: $50\ \Omega$

Antenna gain: 0.2dBi

Antenna length and width: 42mm*34mm+1mm

Antenna polarization: vertical polarization

Degree: the highest temperature is 220°C

3. Antenna Photo
