

Digital Calendar

ALL-in-One Family Calendar

User Manual

Introduction

Thank you for purchasing this Digital Calendar. Before using the Digital Calendar, please read this manual carefully and keep it in a safe place.

The description in this manual is based on the latest information at the time of editing. The actual product you receive may differ slightly from the descriptions in this manual owing to technical updates and production batch differences. We reserve the right to change product specifications and update this information from time to time. For further assistance, please contact our sellers or after-sales team. The final interpretation right belongs to our company.

Connect To Power

Please connect the digital calendar using the included adapter. The device will turn on automatically.

When the device is on, press the power button once to turn the screen on or off.

Hold the power button for about 2 seconds to get power off option.

To avoid any possible damage to the device, please do not unplug the power adapter from the digital calendar while the device is on.

Before charging, inspect the port and cable plug for damage, debris, or moisture. If overheating or smoke occurs, immediately disconnect the power and unplug the cable;

Product Specification

Resolution	1280x800 HD	Memory	2GB
WI-FI	2.4GHz+5GHz	Storage	32GB

Before Device Installation

Wall-Mounting Tips

Take the height of all device users into consideration. It is recommended to install the device at an eye-level height. Ensure sufficient space for both horizontal and vertical mounting orientations. Do not drill holes above wall studs, electrical wires, or pipes. Before installation, unplug the device from the power socket and keep it away from water sources.

Electric Drill

Hammer

Wall Protection Tape

Other accessories inside the packaging box

Power Adapter

Bracket

Two Screws

Two Expansion Anchors

The included screws and expansion anchors are suitable for drywall, brick, concrete, or tile walls.

Introduction to Digital Calendar

Preface

Congratulations on your brand-new Digital Calendar!

If this is your first time using the Digital Calendar, simply follow the on-screen instructions during the initial setup.

Once your calendar is set up, you'll be able to efficiently manage your family's schedule and share in recording and celebrating precious moments together!

Digital Calendar

Bring all your daily planning into one clear, centralized display. From schedules and to-do lists to priority tasks, family rewards, and weekly meal plans—every aspect of your routine is seamlessly organized and presented in one place.

Whale Framely App

The Whale Framely App is available on both Android and iOS devices. It allows you to plan, manage, and update your schedule anytime, anywhere, with support for syncing third-party calendars. Wherever you are, it helps you stay organized while keeping your family connected.

How to download the **Whale Framely App**

Download the App by scanning the QR code.

Log in to the appropriate store to download the free app.

- **Android:** Search for "Whale Framely" on Google Play.
- **iOS:** Search for "Whale Framely" on App Store.

Digital Calendar

Getting started with Digital Calendar

When you first launch the calendar, you'll need to set it up

1. If prompted, update to the latest version for optimal performance.
2. Select your preferred language for the interface.
3. Connect the device to your home Wi-Fi to enable photo and video syncing.
4. Verify that the date, time, and time zone are set correctly.

Adding members to the Calendar

1. Make sure your calendar is properly connected to the internet and that the Whale Framely app is downloaded and installed on your phone. When you first open the calendar, the system will generate a random pairing code and QR code, which will be valid for 48 hours.
 2. Share this invitation code with new members through any method you prefer, such as SMS, email, instant messaging, or phone calls.
 3. Open the Whale Framely App, tap the Devices tab, and either scan the QR code on the calendar to add it directly or enter the pairing code to add it.
- Once the calendar is successfully added, you can plan your events anytime anywhere and stay closely connected with your family.

**Note: After your calendar is bound, the Devices page will display all bounded devices.
To switch device, please click on the calendar name.**

Dashboard

Quickly get an overview of your schedule.

Monthly View:

Displays your full monthly schedule. Easily switch between dates to view detailed daily plans.

Today's Schedule:

Focuses on today's agenda to help you stay on track and complete tasks efficiently.

To-Do List:

Shows your active and ongoing task lists.

Calendar

Offers multiple view-switching and filtering options to accommodate diverse scheduling needs.

Create event

You can create events on your device. Once created, the event will sync to the app.

How to create an event on the device?

1. Open the calendar module on the device.
2. Tap the "+" icon in the bottom right corner of the screen.
3. On the next page, enter the event creator, title, time, and other details.
4. After confirming all information is correct, click the "Save" button. The event will then sync and be displayed in the creator's app.

View Event Details

In the calendar view, click on the event you want to view. The event details page will display all the information about the event, including the subject, time, description, and more.

Edit Event

On the event details page, locate and click the “Edit” button and you can edit the event.

Filter

Supports filtering events by members, categories, and third-party calendars.

Search

Quickly find specific events using keywords.

Lists

Easily manage your task list and view detailed task information as needed.

Create a list

You can create checklists on your device. Once created, the checklist will sync to the app.

Edit Lists

Click the small circle next to the task to mark it as complete or to undo its completion status. Long press on a task to adjust its order, helping you optimize your task arrangement.

Rewards

Rewards is a feature that helps motivate kids by making their progress toward goals visible and trackable.

View Reward Details

In the Rewards module, tap on a reward to view its details, including the reward name, time, and stars required for redemption. Long press on a reward to adjust its order.

Redeem a Reward on the Calendar

1. Tap Rewards in the Navigation bar on the Calendar.
2. Find your member.
3. Tap the Redeem button associated with the Reward you want.

Note: The Calendar device only supports viewing. Please create rewards through the Whale Framely app.

Tasks

Tasks are a core feature of the Calendar device, helping you stay on top of important activities in your daily life. Examples of tasks include chores like "Clean the garage" or "Mow the lawn."

View Task Details

In the Tasks module, tap on a task to view its details, including the task name, time, and stars that can be earned. Long press on a task to adjust its order, helping you optimize your task arrangement.

Photos

You can share photos and videos to the Calendar device via the Whale Framely App. On the Calendar device, you can manage your photos, create custom albums, set cover, play slideshows, and even use photos as a screensaver.

Meals

Meal planning is a powerful feature that allows you to schedule an entire week's meals in just a few minutes.

Create a meal plan

You can create meal plans on your device. Once created, the meal plan will sync to the app.

View Meal Details

In the Meals module, tap on a dish to view its details, including the dish name, image, ingredients, and more.

Settings

Calendar Name

You can customize the device name for easy identification and management.

Set Time Zone

Set the time zone used on the calendar.

Set Language

Set the language used on the calendar.

Automatic Network Time Correction

Once activated, the calendar will connect to the internet in real-time to correct the time.

You can use this “Setting” to personalize your calendar based on your needs.

Date/Time Settings

After automatic network time correction is turned off, you can manually adjust the date and time.

Enable/Disable 24-hour Format

Enable and disable the 24-hour format.

Brightness Settings

Adjust the screen brightness level.

Touch Screen Sound

Enable and disable the touch screen sound.

Font Size

Default standard font size, with 4 levels of size selection available.

Sleep mode

Whale Framely offers a sleep mode, in which the screen turns off to reduce power consumption. The default setting turns off the screen at 20:00 and turns it back on at 08:00. To change this, simply set the start/end time for sleep mode.

Reset Calendar

Delete all data from the calendar. This will permanently remove all photos, members /connections and settings.

Calendar

***Hide Completed Lists**

***Reminder Settings**

***Event Reminder Settings**

***Reminder Volume**

***Reminder Sound**

***Reminder Duration**

***Reminder Light**

***Account protection**

***Delete events & lists**

Photos

Photo Screensaver

You can set photos as a screensaver. Once the screensaver is enabled, you can choose which album to display and configure a timer, such as automatically entering screensaver mode after a few minutes of inactivity.

Members

This list displays all connected members that are authorized to manage the events in your calendar.

Add members

You can create a new Whale Framely member for those who don't have account like your daughter or son.

1. Tap "Add Member"
2. Select a profile photo, enter the member name, select a color
3. Tap "Add". Once completed, you can create events for them.

Invite new member

To invite a new member to manage the events together, simply tap the "Invite new members" button and share the generated pairing code or QR code in your preferred method.

Unbind member

You can unbind a member. By clicking unbind, you will disconnect from this account, and all associated content will no longer be displayed.

Member Permission Description

Calendar Device: After adding members, all members are allowed to operate on the device and can perform all management operations, including adding, deleting, and editing, for all users on the platform (including both real and virtual users).

App: The scope of permissions is limited. The operator is only allowed to add, delete, and edit their own account and virtual users. For other real members, only viewing permissions are granted, with no permission to modify.

Wi-Fi

Set the Wi-Fi that the calendar will connect to.

More

Software Version Update

Check for updates to the calendar software.

Help

Frequently Asked Questions: Refer to the FAQ section to quickly resolve any questions you may have while using the app.

Support Services: If you have any other questions, you can contact us via email (whaleframely@outlook.com), and we will be happy to assist you.

App Download: Scan the QR code to download the Whale Framely App and easily manage your events.

Whale Framely App

Quick setup

The App is a mobile efficient tool. You can log in using a visitor account, an email account or a Third-party authorized account.

Guest Account:

Data is not stored in the cloud. This is a temporary account, and all data will be permanently deleted if the app is uninstalled or reset.

Email Account:

Data is stored in the cloud (such as profile photo, nickname, and calendar bindings). Your data will remain in the cloud even if the app is uninstalled, reset, or you switch devices.

Third-Party Account: Supports login via Facebook, Google, and Apple ID.

Sync Calendar

Sync operations can only be completed through the app.

When you sync your source calendar (such as Google, iCloud, etc.) with Whale Framely, any changes made to the source calendar will automatically be reflected on the Digital Calendar.

Especially for Google Calendar, you can choose to enable the two-way sync feature. This means any events you create or edits you make in Whale Framely will be synced in real-time with your Google Calendar.

Note: Visitor accounts cannot use this feature.

Home

In the "Home" module, you can manage your own events or lists and achieve instant synchronization across multiple calendars with a simple check. You can easily create events or lists and sync them across multiple devices for display.

Note: This module is for displaying the events and lists only about you, not all family members.

My Events

How to share the newly created events with multiple calendars?

1. Launch the App: Open "Whale Framely" App and navigate to the "Home" module.
2. Add event: In the bottom right corner of the screen, click the "+" icon and select "events" from the pop-up.
3. Enter event details: On the next page, input the title, time, and other details of the event.
4. Set sharing options: Choose the calendar(s) you want to send the events to (multiple calendars can be selected) and specify the inviters (members who have access to view and edit the event).
5. Save event: Tap "save," your event will then be instantly displayed on the selected calendar(s).

My List

How to share a newly created list with multiple calendars?

1. Launch the App: Open your "Whale Framely" App and navigate to the "Home" module.
2. Add new list: Click the "+" icon in the bottom right corner and select "list".
3. Enter list details: Input the title of the List select a category label and add to-do tasks.
4. Set Sharing Options: Choose the calendars to which the list will be sent (multiple calendars can be selected) and specify "Invitees".
5. Save list: Once everything is confirmed, tap "Save" button, and the list will instantly be synced on the selected calendars.

Devices

In the "Devices" module of the "Whale Framely" App, you can add or manage multiple devices. For a single device, you can set up the calendar, manage lists, sync calendars, manage family members, and perform simple calendar settings.

Unbind the connected calendar

If calendars are no longer needed, you can unbind the connection. But please note that once the connection is removed, all events you previously created on that calendar will no longer be synchronized.

How to unbind a connected calendar in "Whale Framely" App?

1. Tap the icon of the calendar you want to delete.
2. Tap the delete icon in the top right corner
3. Check the unbinding pop-up window and click Unbind to confirm the deletion.

Calendar

View switching

Supports switching between viewing events by schedule, viewing events by week, and viewing events by month for quick access to different time range events.

Create event

You can create an event in the App. Once created, the event will be synced to the calendar. If you have enabled the two-way sync feature to sync with "Google calendar", any changes you make in the "Whale Framely" App will also be synced to your "Google calendar".

Lists

The list will be synced between your calendar and mobile App, keeping the whole family updated. You can create as many lists as you need.

Create list

You can create a list in the App. Once created successfully, the list will be synced to the "Whale Framely" calendar. Also, each list can include many different task items underneath.

Tasks

Tasks help you stay on top of important activities in your daily life. Examples include chores like "Clean the garage" or "Mow the lawn."

Rewards

Rewards is a feature that helps motivate kids by making their progress toward goals visible and trackable.

Photos

Sharing photos is divided into picture share and video share.

Photo share: select photos and videos (up to 50 pictures,) - edit pictures - select photo frames - send.

Note: Each video supports a maximum length of 60 seconds. Supports viewing Live Photos.

Meals

The Meals feature allows you to plan a whole week's meals in just a few minutes.

Rename

The rename feature allows you to set an alias for your device for easy identification. If no alias is set, changes to the device name will sync to the app. Once an alias is set in the app, changes made on the device will no longer sync to the app.

Members

In the “Members” module, you can easily browse the information of all family members connected to the selected calendar.

View family member information

On this page, you can view the avatars, names, emails, color identifiers, and other information of all family members.

Whale framely members

You can create members for those who don't have account like your daughter or son. And then you can create events for them.

Invite family members

1. In the “Devices” module, select a calendar you wish to share with your family member, and find “My Family”.
2. Tap “Invite New Member”, and the system will automatically generate a QR code and a unique pairing code.

3. You can choose to save the QR code to your mobile phone for sharing with new members and family via IM App, email, or other ways you prefer. In addition, you can also directly copy the invitation code to share it.
4. Members and family who receive the invitation need to download and install the "Whale Framely" App first and then complete the binding with your calendar by scanning the QR code or manually entering the pairing code. Please note that the invitation code is valid for 48 hours, so make sure to complete the binding within this period.
5. Once connected with the calendar, your members and family can view the calendar details and manage the calendar together.

Settings

To help you better personalize your calendar experience, we provide custom settings options, such as setting the first day of the week view and whether to display completed lists.

Allow device to create: When enabled, device can help you create events and lists.

Week starts from: Choose which day the week view starts on; the calendar view will change accordingly.

Delete events & lists

Supports bulk deletion of events and lists, saving you time efficiently.

FCC Caution :

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
