—.Quick Network Configuration Guide [【Bluetooth Network Configuration】](#)

1.1 Network Configuration Preparation

- Ensure that the [camera is connected to power](#) and the power indicator light is on normally.

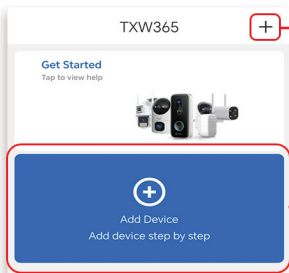

Note: Indicator light flashes slowly in network configuration mode, stays on in network connection mode, and flashes quickly for WIFI disconnection or wrong password.

- Connect to the WiFi corresponding to the camera (note: only [2.4G WiFi](#) is supported) and confirm the WiFi password;

- Ensure the mobile phone has installed the APP matching this brand (for download methods, see the QR code on the home page).

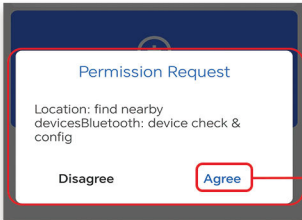

1.2 Network Configuration Process [【Bluetooth Network Configuration】](#)

1. Open the supporting APP and tap "[Add Device](#)" on the home page.

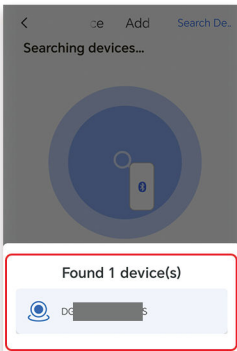

Step 1: Tap "Add Device".

2When adding a device, [grant the relevant permissions](#) (to ensure smooth addition, please select options such as "Precise Location", "Allow Only While Using", or "Allow All the Time").

Step 2: Grant permissions.

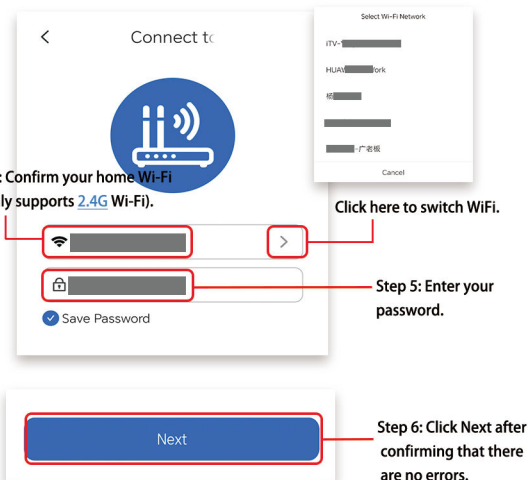

3. Select "[Surveillance Camera](#)" (corresponding device model).

Step 3: Select the corresponding device.

4. Enter your home Wi-Fi password and click "Next";

Step 4: Confirm your home Wi-Fi
(only supports [2.4G](#) Wi-Fi).

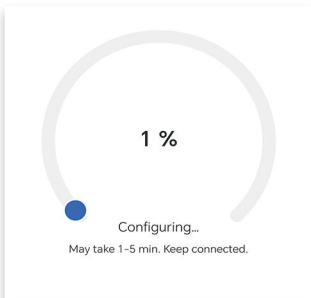

1.3 Network configuration in progress

To add the device successfully, please:

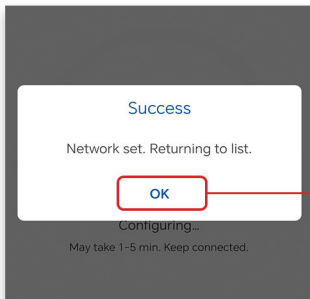

- [1. Keep the screen on.](#)
- [2. Don't leave this page.](#)
- [3. Avoid answering calls, etc.](#)

If the addition fails due to an interrupted operation, please [reset the device](#) manually and try again.

1. Network configuration in progress

2. Network configuration completed (If adding failed, reset the device manually and try again.)

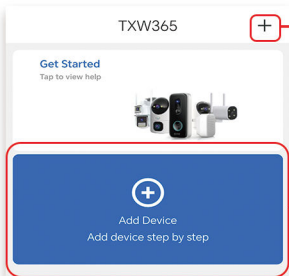

Redirect to the device homepage after confirmation to complete network configuration.

二.Quick Configuration Guide **【AP Configuration】**

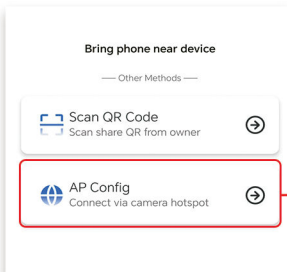

1.4 AP Network Configuration

1. Open the supporting APP and tap the "+" icon on the home page.

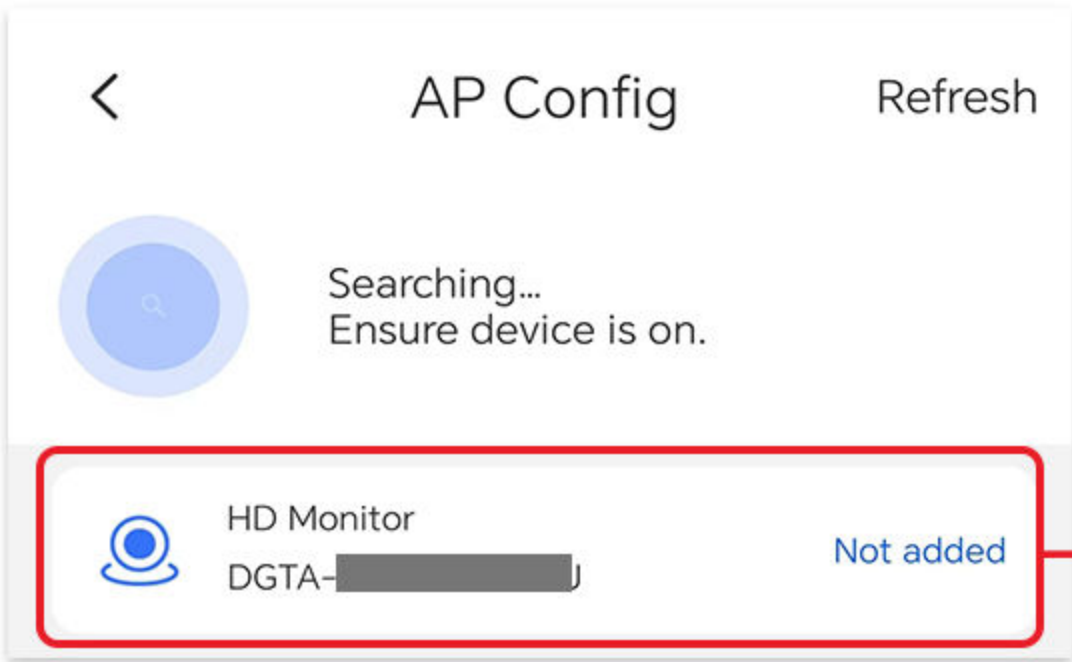

Step 1: Tap "Add Device".

2. Select AP Network Configuration.

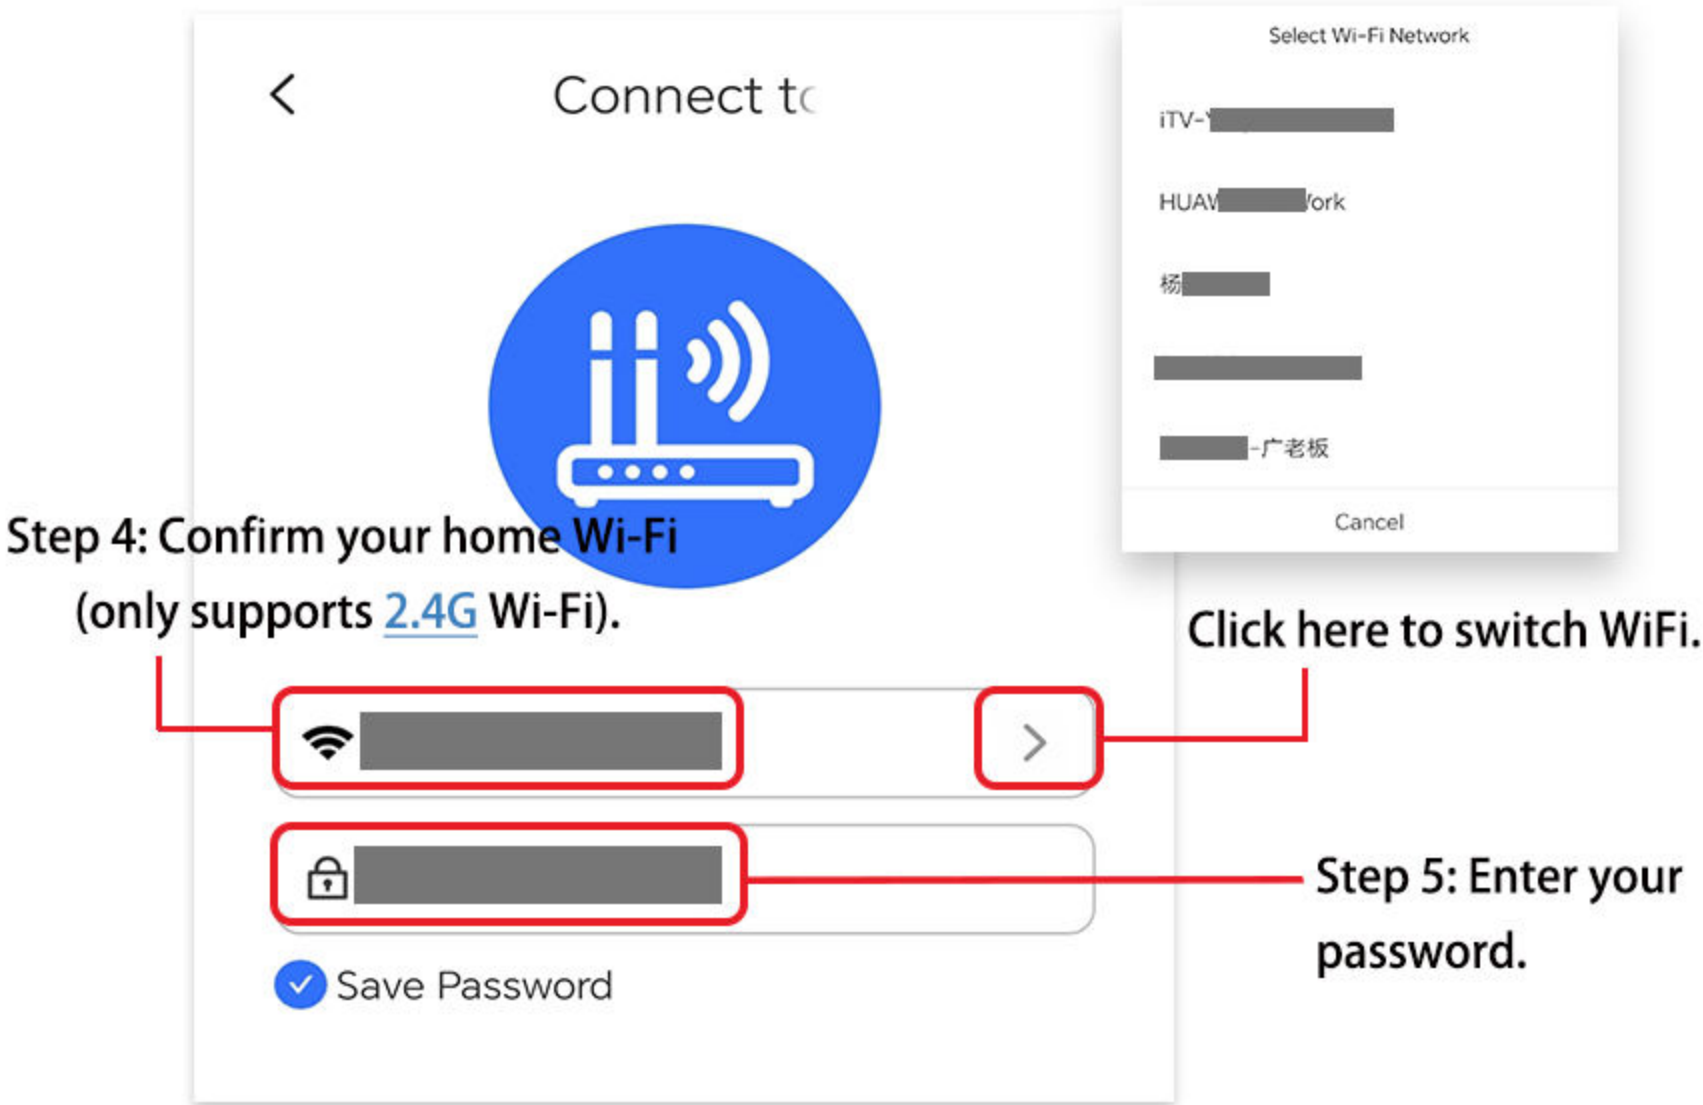

Step 2: Tap AP Network Configuration.

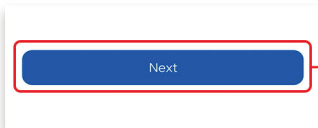

3. Select the corresponding device.

Step 3: Select the device to be configured.

4. Enter your home Wi-Fi password and tap "Next".

Step 6: Click Next after confirming that there are no errors.

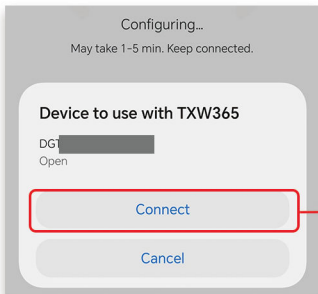

3.5 Network configuration in progress

To add the device successfully, please:

- [1. Keep your phone screen on.](#)
- [2. Do not leave this page.](#)
- [3. Avoid answering calls, etc.](#)
- [4. Do not switch the network.](#)

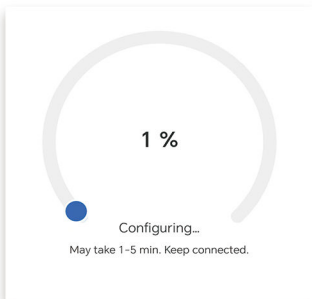

If the device addition fails due to interruption, please [reset the device](#) manually and try again.

1. After confirming the device, tap Connect to start network configuration.

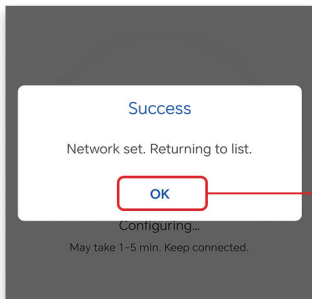

Step 7: Tap Connect

2. Network configuration in progress

3. Network configuration completed.(If the addition fails, reset the device manually and try again.)

Redirect to the device homepage after confirmation to complete network configuration.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
