

# 1. Antenna Description:

|                 |                                                                                                       |
|-----------------|-------------------------------------------------------------------------------------------------------|
| Antenna type    | Ceramic antenna                                                                                       |
| Model           | Super 16                                                                                              |
| Frequency range | 2400-2500MHz                                                                                          |
| Manufacturer    | Dongguan Geekfly Electronic Technology Co., Ltd.                                                      |
| Address         | Room 611, Building 4, No. 11 Changheng Road, Changping Town, Dongguan City, Guangdong Province, China |
| ANT Peak Gain   | 0.96 dBi                                                                                              |

### 3. Test Equipment & Conditions

#### 3.1 Test instrument

VSWR is tested using Agilent E5071B connected to a hand mechanism, and the status is free space.

#### 3.2 Test environment and methods

Dark room specifications: ETS-743

TD-SCDMA test equipment: StarPoint SP6010/Agilent 8960

LTE-TDD/FDD-SCDMA test equipment: StarPoint SP8011/CMW500

WCDMA/GSM/CDMA test equipment: Agilent 8960

Passive efficiency testing equipment: Agilent Technologies E5071B

## 4 . Antenna Radiation Pattern

2400MHz

2450MHz

2500MHz
