Previous track

Bluetooth Audio Connection

1.Turn on the Speaker

Press and hold the power button for 2 seconds to turn it on, and a startup tone will play. The default mode is built-in music playback.

2.Connect to a Mobile Device

Quickly switch from the built-in mode to Bluetooth mode within a short time, then enable Bluetooth on your mobile device. Find "Rotating Lamp" in the Bluetooth device list and connect to it. When the connection is successful, the LED indicator will display "Connected!". During subsequent use, as long as Bluetooth is enabled on your mobile device, the speaker will reconnect automatically.

Kind Reminder

- 1.The surface of this product is semi-transparent, please be aware that there are openings in the design due to structural considerations. To prevent potential short circuits, avoid exposing the product to water.
- 2.Please handle the product with care to prevent it from falling, being thrown, or sustaining damage from strong impacts.
- 3.Do not attempt to disassemble the product yourself. Repairs should only be performed by authorized personnel from our company.

Certificate Of Conformity

Production Date: _____

Inspection Date: _____

Inspector : _____ 09

尺寸: 85*108mm

材质: 128g双铜

工艺: 正反印刷

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
