

Ceiling Fan Remote Control Manual

Powered by 2xAAA batteries (not included)

Kindly Reminders:

If the remote control unable to operate the fan, please follow the steps below to troubleshoot:
1. Check the remote control's battery for proper contact, correct placement and sufficient charge. Low battery voltage can decrease the range and sensitivity of the remote. If the remote control is not used for an extended period, please remove the batteries.
2. Try re-pair the remote control with ceiling fan.

Pairing Method:

Turn on the power, press and hold the "ON / OFF" button within the first 5 seconds of the light turning on. When you hear the "beep" sound or see the light flashing, the pairing is successful. If you need to pair again, wait for 30 seconds after turning off the power and repeat the above steps.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the

following measures

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution

Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Portable

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
