

VAT Powerbank

V12 Product Manual

Specifications

Name: Ultral Slim Magnetic Wireless Powerbank V12

Model No: V12

Batch No: V12A263501

Battery Capacity: 3.87V/5000mAh/19.35Wh

Type-C Input: 5V=3A 11CP 6/65/78

Type-C Output: 5V=3A, 9V=2.22A, 10V=2.25A, 12V=1.67A (20W Max)

Wireless Output: 5W, 7.5W, 10W, 15W

Operating Frequency Band: 0.1 – 0.205 MHz

Maximum Radio-Frequency Power: ≤42 dBm

Caution

1. Recharge the power bank once every six months when not in use.
2. Keep away from liquids. Stop using if it is wet to avoid fire hazards, battery leakage, electric shock or explosion.
3. Keep away from high temperatures.
4. Never try to dismantle, repair or refit this unit by yourself.
5. Do not knock this product. Avoid dropping.
6. Do not clean this unit with soap or other detergent to avoid damaging.
7. Stop using immediately if deformation, breakage, overheating or abnormal odor occurs.
8. Keep away from flammables, smoke and heat surface.
9. Keep out of reach of children.
10. Dispose this product as per local law and regulations.

FCC Caution

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment can be installed and operated with minimum distance 0 cm between the radiator & your body.
