- 1.Power on: Press and hold the “on/off” button on the ba ck for three seconds, and your eyes wwill light up to success fully power on.
- 2.Shutdown: Press and hold the “on/off” button on the ba ck for three seconds, and the eyes will turn off to success fully shut down.

Network Configuration OR re-networking

re-networking: Click three times

Long press to power on/off

Triple press to reconfigure the network

APP Download and Use

- 1.Search for tuyasmart or smartlife on Google Play or Apple App Store.
- 2.After entering the App, follow the owl prompts accordingly.
- 3.You can adjust the volume and character of the owl through the app.

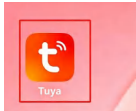

Distribution network operation:

Press and hold the "Power Key" to enter the distribution network state. Follow the prompts in the Doodle APP to complete the distribution network process. Corresponding prompts will be given for successful or failed distribution network connection.

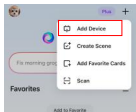

Network Configuration

- 1.Turn on your phone’s WIFI and connect it in advance (WIFI password is required for the subsequent network configuration process). And confirm that the WIFI name is in the 2.4G frequency band (usually routers support 2.4G, such as “Only 5G WIFI” or “ 2.4G and 5GWIFI with the same name ” are not supported
- 2.Turn on the device and enter the Tuya

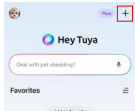

4.Click “Add Device”

6.Connect to the same network as the phone

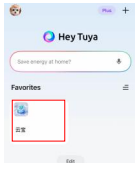

- 3.Enter the app and click “+” in the upper right corner of the home page

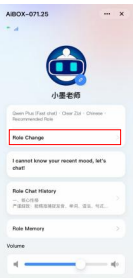

5.Connect your product to product

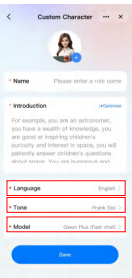

7.Click to enter edit mode

8.Can adjust volume or edit/switch roles

9.Enter the editing role to switch between language, tone, and model

Product usage instructions

Simply turn the device to enter the touch mode, and you can also touch it during conversations.

Dialogue mode: Once the network connection is established, it will automatically enter the wake-up dialogue/key-press dialogue mode. By default, it is a wake-up dialogue where clicking the key will allow you to resume the dialogue or pause it. The wake-up word for the wake-up dialogue is "Hey Tuya".

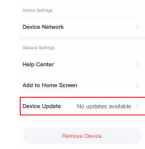

Emotion trigger. When the owl says something like “I’m happy” or “I’m angry”, it will respond with a corresponding expression.

Equipment update steps

- 1.After successfully connecting to the network, click on the product details
- 2.Scroll down to find device upgrade

Charging and storage

Charging requirements

1. Connect the charging cable to the charging port of this product and use a regular charger with a rated value of 5V2A and compliant with the national CCC certification (which needs to be purchased separately) to charge this product.
2. It usually takes about 2 hours to be fully charged (the time may vary due to various factors).
3. During charging, the light on the right side of the Type-C charging port turns yellow indicating charging is in progress, and turns green indicating the charging is complete.
4. Do not charge continuously for more than 8 hours. Ensure someone is present during charging. Do not charge when going out or leaving for a long time.

Cleaning method

1. This product is not waterproof. Do not wash it with water or immerse it in water.
2. Do not use salt water, hot water, or cleaning agents containing bleach, strong acids or alkalis with irritating properties for cleaning.
3. Please turn off the device before cleaning. For daily use, use a soft cloth dampened with tap water, wring it out completely, and gently wipe the fluffy surface. After cleaning, be sure to press out the excess water gently with a dry tissue, wait for it to air dry naturally, and then use a small steel comb to remove the surface fluff.
4. If there are stubborn stains, please contact the official customer service for more cleaning instructions.

Warranty Information

1. This product is manufactured under strict quality control. Within one year from the date of purchase and acceptance by the user, if there is a non-human damage or performance failure, after being inspected and confirmed by the after-sales service center, we will provide free maintenance services within the warranty period.
2. Returns and exchanges of the product can only be done at the point of purchase.
3. Please properly keep this warranty card and avoid scribbling or tampering with it.
4. For the terms of product after-sales service, please contact.

Instructions beyond warranty

1. Beyond the warranty period;
2. Damages caused by human factors: such as physical damage or liquid ingress, etc.;
3. Unauthorized personnel tampering with or flashing the device;
4. Damages caused by irresistible factors;
5. Reselling your product;
6. Using the product in violation of any laws or the terms between you and us;
7. Other faults and damages not related to the product itself, manufacturing, or quality issues;
8. For other post-warranty terms, please refer to the after-sales warranty policy.

Special battery reminder

1. The built-in battery is of 3.7 - 4.2V voltage and is non-replaceable. In case of damage, contact the service for repair.
2. The charger should be used by adults or under adult supervision.
3. Regularly check whether the wires, plugs, casing and other components of the charger are damaged. If any damage is found, stop using it until it is repaired completely.
4. When cleaning the product, it should be powered off and disconnected from the charger.
5. The product is not sold with a power adapter. If consumers use a power adapter to supply power, they should purchase a power adapter that is certified by CCC and meets the standard requirements for use.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.
- The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Storage precautions

Do not use, store or charge this product under direct sunlight, near heat sources or in high-temperature environments. Please place this product in a cool and dry place when not in use.

Safety and cleanliness

Safety precautions

1. This product is equipped with a built-in lithium battery. Please use this device within the temperature range of 0°C to 40°C. Do not place this product in extremely high temperature environments. Please keep it away from fire sources or other heat sources. Do not place it close to fire sources. Do not collide, impact, squeeze or puncture it. Do not disassemble, repair or modify it by yourself. Do not place the battery in an extremely low pressure environment, as it may cause battery explosion or leakage of flammable liquids and gases.
2. Do not use the charger to charge this product in damp locations (such as washbasins, bathtubs or near bathrooms).
3. When children use this product, they must be supervised by an adult and guided, and the adult is responsible for the safety of the user. Before use, please check if the appearance is intact, if the installation is in place, and if the machine is running normally. If there are any problems, please contact the after-sales service.
4. Please properly handle the packaging of this product to prevent infants from coming into contact and causing asphyxiation accidents. Do not use this product or its accessories when they are damaged or broken. Do not clean this product during the operation or charging process.
5. Please regularly check this product. If you find any abnormalities in charging or the charging cable, please stop using it immediately. Otherwise, there is a risk of electric leakage, short circuit or fire.
