

FCC Warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

How to Insert the Bullet:

INSTRUCTIONS OF THE CONTROLLER

Uses 1 x AAA (DC1.5V) (LR03) alkaline battery (not included).

Warning: To Avoid Battery Leakage

- Be sure to insert the battery in correct polarity and follow the manufacturer's product and battery instructions.
- Do not mix alkaline, standard(carbon-zinc) or rechargeable (nickel-cadmium) batteries.
- Always remove weak or dead batteries from the product.
- Non-rechargeable batteries are not to be recharged.
- The supply terminals are not to be short-circuited.
- Retain packaging and instructions for future reference.
- Remove battery from your product after every session to preserve battery life.

INSTRUCTIONS OF THE BULLET

Warnings and Disclaimers:

- To recharge the device, please only use the USB cable that we have provided in the packaging;
- This product is intended for use when supplied with power from the designated battery or power supply unit. Other usage may be dangerous and will invalidate any approval given to this product;
- Please recharge the device for 3 hours before initial usage;
- Do not short the terminals. Connection to improper grounded equipment can result in short-circuit.
- Use of non-original manufacturer-approved accessories will damage the product and cause explosion;
- Recharge the product at room temperature (21°C or 69.8°F);
- Store in a cool and dry place;
- If terminals are soiled, clean with a soft cloth;
- Unplug from the socket when the device is not being recharged;
- Keep the device away from fire;
- Keep the device out of reach of infants or children;
- Do not expose the device to any mechanical shock.

Safety Precautions:

Device will get warm after prolonged use

- The product will get warm after being used for a period of time;
- It is highly recommended to turn the product off and let it cool down before using it again;
- The product should be placed away from heat sources such as radiators, registers, stoves, or other products (including amplifiers) that produce heat.

Main Compositions: Silicone, ABS Plastic

Caution: This product is not intended for therapeutic purposes. It should not be used on swollen or inflamed areas of skin lacerations. Prolonged and frequent use are not advised or recommended as this product is sold as novelty purpose only. This product should be used with discretion. No medical claims are warranted or implied by the use of this product. Do not use when bathing or in the shower. The device cannot be used while it is being charged.

WARNING:

Charging Instructions:

**Ensure the pin is plugged into the charging point perpendicularly.*
**Plugging the cable incorrectly will cause damage to the device.*

Technical Data:

Operating temperature : 4°C - 60°C
Charging voltage : 5V
Battery : Li-Ion 3.7V, 0.37Wh
Battery capacity : 100mAh
Fully charged : Approx. 120 minutes
Charging cycles : Approx. 500 times
Usage period : Approx. 60 minutes
Interface : USB port (5V, >1A)

How To Operate The Bullet:

• Press and hold to turn ON the device.

• Press again to cycle through the 10 different rhythms.

• Press and hold to turn OFF the device.
