

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

- To recharge the device, please only use the USB cable that we have provided in the packaging;
- This product is intended for use when supplied with power from the designated battery or power supply unit. Other usage may be dangerous and will invalidate any approval given to this product;
- Please recharge the device for 3 hours before initial usage;
- Do not short the terminals. Connection to improper grounded equipment can result in short-circuit.
- Use of non-original manufacturer-approved accessories will damage the product and cause explosion;
- Recharge the product at room temperature (21°C or 69.8°F);
- Store in a cool and dry place;
- If terminals are soiled, clean with a soft cloth;
- Unplug from the socket when the device is not being recharged;
- Keep the device away from fire;
- Keep the device out of reach of infants or children;
- Do not expose the device to any mechanical shock.

- The product will get warm after being used for a period of time;
- It is highly recommended to turn the product off and let it cool down before using it again;
- The product should be placed away from heat sources such as radiators, registers, stoves, or other products (including amplifiers) that produce heat.

Caution: This product is not intended for therapeutic purposes. It should not be used on swollen or inflamed areas of skin lacerations. Prolonged and frequent uses are not advised or recommended as this product is **sold as novelty purpose only**. This product should be used with discretion. No medical claims are warranted or implied by the use of this product. This product cannot provide water resistance in the bath or in the pool. Water resistance can be provided only in the shower or during cleaning. The device cannot be used while it is being charged.

Figure 1 displays 10 stimuli used in the experiment, numbered 1 through 10. Stimuli 1-5 are horizontal lines of varying thicknesses. Stimuli 6-10 are waveforms of varying frequencies and amplitudes.

FRONT

Operating temperature:	10°C - 35°C
Charging voltage	: 5V
Battery	: Li-Ion 3.7V, 1.48Wh
Battery capacity	: 40mAh
Fully charged	: Approx. 1 hour
Charging cycles	: Approx. 500 times
Usage period	: Approx. 4 hours
Interface	: USB port (5V, >1A)

Please **DO NOT** shake the tip when it is plugged into the device.

- Press and hold to turn ON the device.
- Press again to cycle through the 10 different rhythms.
- Press and hold to turn OFF the device.

Operating temperature :	10°C - 35°C
Charging voltage :	5V
Battery :	Li-Ion 3.7V, 1.11Wh
Battery capacity :	300mAh
Fully charged :	Approx. 90 minutes
Charging cycles :	Approx. 500 times
Usage period :	Approx. 60 minutes
Interface :	USB port (5V, >1A)
