

Standard Setup

Optional Handle Bracket Setup

Charging and Power

- ① Before charging, ensure the product especially the charging contacts is completely dry. After charging, unplug the charger and charging cable promptly to avoid risk.
- ② Connect the USB cable to a USB power adapter or USB port to charge.
- ③ A full charge takes about 180 minutes. Actual charging time may vary depending on the remaining battery level.
- ④ A full charge provides up to about 80 minutes of use.
- ⑤ There is no need to completely drain the battery before charging.
- ⑥ Dispose of the device properly to help prevent battery pollution.
- ⑦ This product uses a rechargeable lithium battery. Do not expose the battery to high temperatures, excessive heat, or liquids.
- ⑧ Dispose of this product as electronic waste. Do not dispose of it with regular household trash.

Care and Maintenance

- ① The main unit is not waterproof. For cleaning, remove the insertable attachment and wash the attachment separately with clean water or a mild cleaner, then dry it thoroughly. Water damage to the main unit is not covered under warranty.
- ② Store the product in a cool, dry, well-ventilated place. Keep it away from direct sunlight, high temperatures, heavy pressure, and contamination.

Safety Warnings

- ① This product is intended for adults only. It is not a contraceptive product. Keep it out of reach of children.
- ② Do not use excessive force during use. Stop immediately if you feel pain or discomfort.
- ③ Do not share this product with other people.
- ④ Do not wipe the product with alcohol, as it may damage the appearance of the product.

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
