⑬ DC charging port.

Instructions for Use

1. Push the function button on the transmitter to the "ON" end.

2. Short press the receiver's power on/off button. A "beep" sound will be emitted, and the indicator light will flash green intermittently every 3 seconds.

3. After the receiver is powered on, press and hold the power on/off button for 2 seconds. A "beep" sound will be emitted, and the indicator light will flash continuously.

4. On the transmitter, select channel "1" or "2" and trigger the beep function to connect to the receiver.

5. If you need to switch channels, repeat steps "3" and "4".

Notes:

1. The receiver has a pairing time of 10 seconds. If the time is exceeded, repeat steps "3" and "4".

2. The product supports dual channels, allowing two receivers to be connected simultaneously and controlled separately on different channels.

3. If the receiver is not powered off and is in a low battery state, the red light will remain constantly on. It is recommended to charge the device.

4. Please ensure the charging port is dry when charging the product to avoid damaging the charging cable.

5. The receiver is equipped with a conductive nut, and users can replace it with a conductive nut of different length according to the actual situation of use.

Made In China
