E-Label Content

FCC Regulatory Information Model: Talkid One FCC ID: 2BXZ5-TALKID This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

B. Access to the Required Information on the E-Label

Users can access the FCC regulatory information directly from the device menu through:

Settings > Regulatory

- The required regulatory information can be reached in no more than three steps from the device menu.
- No special access code, permission, accessory, SIM card, or external device is required.
- The e-label information is stored on the device and can be viewed directly on Talkid One.
- Instructions for accessing the regulatory information are also provided in the Talkid One user manual.

C. Labeling for Importation and Purchasing

Talkid One carries permanent physical identification on the product and/or retail packaging.

The regulatory website address is provided as: talkid.io/regulatory.

The FCC ID is provided electronically through the device e-label.

D. Other Considerations

The e-label information is pre-programmed in the device firmware.

The user cannot modify or delete the regulatory information displayed on the e-label.

All other applicable FCC regulatory information and statements are provided in the Talkid One user manual at talkid.io/regulatory.
