

Smart Plug-in User Manual

Product Introduction

Thank you for choosing our product. For an optimal user experience, please read this instruction manual carefully before use.

This smart plug-in supports remote control via mobile APP. Its functions include remote power on/off, power consumption monitoring, scheduled switching, countdown shutdown, recurring task setup, electricity usage alerts, charging protection and more, bringing greater intelligence to your daily life.

Overview

Short press: Turn the plug-in on / off

Double press: Activate countdown shutdown (settings required in the APP)

Front

Back

Quick Setup

Step 1: Power On

Plug the smart plug-in into a powered socket.

Step 2: Download the APP

Scan the QR code below to download the Greengiga APP and complete your registration.

IOS

Android

Step 3: Add Device

After completing registration, tap "Add a device" on the page or the plus icon in the upper right corner, then follow the guide to add the device and configure the network.

Step 4: Adjust Time Zone

After you have finished adding the device, tap the device card on the "Space" page to enter the device details page. Next, tap the gear icon in the upper right corner and select "Device Time Zone". Choose the correct time zone corresponding to your location.

An incorrect time zone setting may cause scheduled tasks to fail to run properly. If you are unsure of your local time zone, you may look it up online.

Step 5: Device Operation

After finishing time zone settings, return to the device details page. Here you may remotely switch the device on/off, check power consumption data, set countdown timers and scheduled tasks. Tap the gear icon in the upper right corner to access additional settings.

Safety Precautions

1. Do not disassemble or submerge the device in water; avoid storing it in high-temperature areas or throwing it into fire.
2. Do not apply external force to damage the unit.
3. Maximum output power: 1400W at 110V, 2200W at 220V. Do not connect electrical appliances with excessive power draw.
4. Unauthorized disassembly or modification is strictly prohibited. Repairs must be performed by qualified professionals only.
5. Use and store the device in dry surroundings. Keep it away from high heat and damp conditions. Fireproof, moisture-proof and waterproof measures are required.

Warranty

1. This product enjoys a one-year warranty from the date of purchase.
2. For malfunctions arising from normal use within the warranty period, you may contact our company for after-sales service.
3. We shall not provide free warranty service for damages caused by the following circumstances:
 - Counterfeit or imitation products;
 - Accidents or force majeure;
 - Man-made damage including water ingress, mechanical damage, drops and unauthorized disassembly;
 - Surface wear, scratches and deformation.

We reserve the right of final interpretation and decision.

FCC Warning:

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
