WIRELESS INDUCTION
SPEAKER

Function Operation Instructions

1. Long press the power button to turn on/off the device. Short press the "Music" button to pause/play.
2. Short press mode switch (Inductive mode / Bluetooth mode).
3. Short press to play the previous song, long press to decrease volume.
4. Short press to play the next song, long press to increase volume.

When this product is turned on, it defaults to the sensing mode.
In the induction mode, when the phone is turned on and the player is activated, with the volume set above 50%, place the phone speaker on the induction zone of the speaker, and the device will start playing music.

Short press Switch to Bluetooth mode.
In the phone settings, turn on the Bluetooth setting switch, then click on "Search Devices". When the available devices show the "i18" character indicating that the phone has found the Bluetooth name, select this Bluetooth name to enter the pairing mode. After the phone successfully pairs with the device, a voice prompt will appear, indicating a successful connection and the blue indicator light will remain constantly on.

Lighting settings
Double-click Key. Switch among 9 colorful light modes. Press and hold for 2 seconds to turn off the light.

Charging
When charging, the red indicator light flashes. The indicator light remains on after the device is fully charged.

Compact mobile phone stand

The speaker has the function of a mobile phone stand and can rotate 360 degrees in the up-down direction.

Specification parameters:

High quality, everyone's choice

This device complies with part 15 of the FCC Rules.
Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement.
The device can be used in portable exposure condition without restriction.
