

# 1. Antenna Description:

|                 |                                                                                                            |
|-----------------|------------------------------------------------------------------------------------------------------------|
| Antenna type    | Dipole Antenna                                                                                             |
| Model           | ORIGO T108-WIFI                                                                                            |
| Frequency range | 2400-2500MHz                                                                                               |
| Manufacturer    | SHENZHEN DANFOO TECHNOLOGY CO.,LTD.                                                                        |
| Address         | Room 1201, Chuangwei Digital Building, Shiyao Street, Bao'an District, Shenzhen, Guangdong Province, China |
| ANT Peak Gain   | 3.51 dBi                                                                                                   |

# 2. Antenna Photo:

### 3. Test Equipment & Conditions

#### 3.1 Test instrument

VSWR is tested using Agilent E5071B connected to a hand mechanism, and the status is free space.

#### 3.2 Test environment and methods

Dark room specifications: ETS-743

TD-SCDMA test equipment: StarPoint SP6010/Agilent 8960

LTE-TDD/FDD-SCDMA test equipment: StarPoint SP8011/CMW500

WCDMA/GSM/CDMA test equipment: Agilent 8960

Passive efficiency testing equipment: Agilent Technologies E5071B

## 4 . Antenna Radiation Pattern

2400MHz

2450MHz

2500MHz
