Consumables Borrowing

2. Consumables Borrowing

(1) Open the home page of the grid cabinet and click "Borrow"

(2) After log in, select machine that is needed to use the consumables. For example, click "JC-30" machine

2.1 Consumables Borrowing

(1) Select the consumables required by the device "JC-30" in the interface, click the "+" button, and the consumables information will pop up on the page

(2) Click “borrow”, xxx box will open. Fill in quantity you need(quantity cannot be 0 or over current inventory). Close the box when you finish borrowing and click “confirm”. (If click “cancel” when inputting quantity, the system will default to successful retrieval)

Note: (If there is any abnormal tool, click "abnormal" to report it, and the administrator can see the abnormal report in the background)

2.2 Tools Borrowing

(1) Select the tool required by the device "JC-30" in the interface, click the "📋" button, and the tool information will pop up on the page

(2) Click the cart, select one or more tools to add them into cart. Click “borrow”. Then the box will open. Get the tools and close the door to confirm.

Tools Returning

3. Tools Returning

(1) Click "Return", log in to enter the tools returning page. Default "by person" to return (or you can select "by machine"). Select tools that need to be returned under your name, click "return"

Note: Tools should be returned one by one to avoid material confusion; consumables do not need to be returned

(2) When returning tool, you can also select “normal” or “abnormal” according to its current status to report to administrator.

(3) After checking the status of the tool, click "Confirm", put the tool back in the cabinet and close the door to complete the return.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
