

The TMS 100 Pro is engineered to use up to 50% less fragrance oil than other diffusers while maintaining the same powerful scent output. Its innovative cold-air diffusion technology maximises efficiency for a longer-lasting and more sustainable scent experience.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

FCC WARNING

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Step 1: Download our app

Open the **App Store** or Google **Play Store**. Search for **The Magic Scent Pro** . Download and install the app.

Alternativley, scan the **QR code** below.

Step 2: Pair the app with your diffuser

Turn on the Bluetooth or WiFi on your phone. Open TheMagic Scent Pro app and select Bluetooth or WiFi mode.

Go to My Devices and find Smart.A5 (ensure your phone is nearby the diffuser).

Select the device and enter the default password: **1234**

The app should now be paired with your diffuser

Step 3: Monitor and Control the Device

Using the app, you can adjust settings, and turn it on or off.

Step 4: Work Time Settings

Click "Set Up" on the main interface to configure the device's working schedule.

You can set up to five working periods per day.

After adjusting the settings, click **"Save"** to apply the changes.

MANUAL SET UP

Power On/Off

Press and hold the button to to turn the device on or off.
You hear one beep when it turns on and two beeps when it turns off.

Turning the fan ON and OFF

Press the button to switch the fan on or off.
The fan light comes on when the fan is running.

Atomizing / Frequency

Press the button briefly to change the working level.

Each press moves to the next level (MIN, LOW, MED, HIGH, MAX).

When you control the device from the app,
it is in app mode.
When you set the level or run time using
the buttons, it is in button mode

Restore to factory settings

With the device on, press and hold the button and the button together until you hear five beeps. The device is now reset to factory settings.

There are five working levels.
Each shows the atomizing time and the pause time,
in seconds:
MIN = 30 / 120 LOW = 60 / 120 MED = 60 / 60
HIGH = 120 / 30 MAX = 300 / 30

This diffuser is designed exclusively for fragrance oils
Do not add water!
For the best fragrance performance, we recommend
using **The Magic Scent** aroma oils.

Lights

Atomizing light: on when the device is making mist

Fan light: on when the fan runs

Wi-Fi light: on when connected to Wi-Fi

Bluetooth light: on when connected to Bluetooth.

Proper Installation & Usage

Ensure the installation area is **safe, stable, and level**.

Install in a **well -ventilated** space and set the system to **military time**.

Do not block the sprayer with your hand or any object while in operation.

Avoid spilling water or any conductive/corrosive liquids on or inside the device.

In extreme weather conditions, disconnect the power for safety.

Oil Level Sensor

When your oil runs low, the sensor detects it, and once it drops below 10%, the app prompts you to refill your scent.

APP SET UP

Step 1: Download the App

Download **The Magic Scent Pro** app from the App Store or Google Play. Make sure you select the correct app.

Step 2: Create an Account

Register by entering your name, username, and password.

- Your password must contain **at least 1 number**
- Minimum **6 characters**

3. Add a Device

Open the app and tap the **+** icon to add a new device.

4. Choose Connection Type

Select either **Bluetooth** or **Wi -Fi**.

5. If You Select Wi -Fi

Enter your Wi-Fi **username** and **password**.

Note: The Wi-Fi name must be typed **exactly** as it appears (including spaces, lowercase/uppercase letters, and numbers). Any difference will prevent the connection.

6. Wait for Connection Signals

After adding the device:

- You will hear **one beep**, which means that the device is found
- Wait up to **30 seconds**
- You will hear **three beeps**, which means that the device has successfully connected.
Then tap **Refresh** in the app. Your device should now show as **ONLINE**.

7. Select Your Device

Tap on your device to open its controls. You can adjust all settings here and **rename the device** (useful if you have multiple diffusers).

8. Save Your Settings

After adjusting your settings, tap **SAVE**.
Then go back using the **top -left arrow**.
When you open the device again, you should see your updated settings applied.

Great job! Your device is now connected. Sit back, relax, and enjoy your new scent experience.

The Magic Scent – TMS 100 Pro Nebulizing Scent Diffuser

Proper installation ensures optimal performance and safety when connecting your TMS 100 Pro to an HVAC system. Follow the steps below:

Installation Steps

1. Connect the Hose

Attach the flexible hose (provided) to the atomizer outlet of the diffuser.

2. Position Correctly

Insert the hose vertically in a straight line into the HVAC duct. The connection point should be at the air outlet on top of the HVAC unit, leading directly into the duct.

3. Limit Hose Length

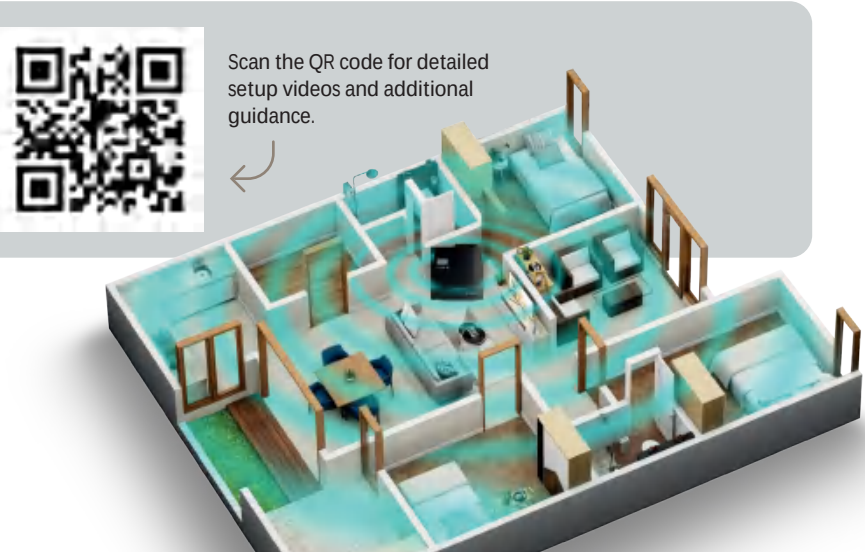

The hose length must not exceed 3 feet to ensure proper diffusion.

4. Set HVAC Controls

Adjust the HVAC system to FAN ON mode to enable consistent fragrance distribution through the ventilation system.

5. Disconnecting the Hose

To remove, press the black release section of the nozzle and gently detach the hose.

NO SCENT	1. Check whether the device is powered on or not. 2. Check whether the pump is working or not, and whether the nozzle is blocked or not. 3. Check whether the essential oil in the bottle has run out or not, and whether the pipe falls off or not.
OIL LEAKAGE	1. Oil leakage inside the machine: Check whether the aroma oil bottle is tightened. 2. Check whether there is blockage in the mist outlet.
UNUSUAL NOISE	1. Check whether the pump falls out or not and reinstall it. 2. Check whether the mist outlet is blocked or not. 3. Check whether the pump has low airflow and pressure.

ACTIVATE YOUR 2-YEAR EXTENDED WARRANTY!

The TMS 100 Pro Nebulizing Aroma Diffuser comes with a 2-Year Extended Warranty for defects in materials and workmanship.

Please read all instructions before assembling and using your diffuser.

TO AVOID CASUALTIES AND PROPERTY LOSS, PLEASE ALWAYS FOLLOW THE INSTRUCTIONS AS BELOW.

WARNING

When using electrical appliances, basic precautions should always be followed to reduce the risk of fire, electric shock, property damage, and injury, including the following:

INSTALLING

Use this appliance only as described in this manual. Any other use is not recommended by the manufacturer and may cause fire, electric shock, property damage, or injury to a person.

To avoid fire or shock hazards, plug the appliance directly into a safe electrical outlet. DO NOT plug in the cord with wet hands. Keep the cord out of heavy traffic areas.

DO NOT operate any appliance with a damaged cord or plug, after the appliance malfunctions, or if it has been dropped or damaged in any manner.

DO NOT use the diffuser in a high temperature or wet environment.

DO NOT allow the mist outlets to face the wall directly. Install the diffuser in a ventilated and adequate space.

NEVER place the diffuser in an area where it is accessible to children.

DO NOT operate the diffuser without first turning on the unit. Failure to heed this warning may cause personal injury. NEVER tilt, move, or attempt to empty the unit while operating. DO NOT block the air outlet while the unit is running.

Always place the diffuser on a firm, flat, level surface. NEVER place it on a rug or carpet, or on a finished floor that may be damaged by exposure to water or moisture.

DO NOT use in flammable, explosive, corrosive, and other hazardous solvents with the diffuser. DO NOT spill water or corrosive liquid on the diffuser surface.

Suggested average daily usage time should not exceed 14 hours.

Shut down the unit in an extreme weather environment.

ATTENTION

This diffuser should only be used with fragrance oil without adding water. For a better performance of the aroma in the environment, we recommend using only The Magic Scent aromas.
