Board View 1****Solder
Board-Component
View 1**

<div>Solder Board-Component View 2</div>	 A photograph of a small green printed circuit board (PCB) component, identified as a solder board-component in View 2. The component is rectangular and features a prominent silver-colored integrated circuit (IC) in the center. The IC is labeled with 'ESPRESSO' and 'WINCOM'. To the right of the IC is a silver-colored rectangular component, possibly a connector or another IC. The PCB is populated with various smaller components, including resistors and capacitors. The component is placed on a blue surface next to a black ruler with white markings, which shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
<div>Solder Board-Component View 3</div>	 A photograph of the same green PCB component, identified as a solder board-component in View 3. This view shows the opposite side of the component. It features a large white rectangular component, likely a connector, and a yellow component. The PCB is populated with various smaller components, including resistors and capacitors. The component is placed on a blue surface next to a black ruler with white markings, which shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).

<p>Solder Board-Component View 4</p>	 A photograph of a small green printed circuit board (PCB) component, likely a module, placed on a blue surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements in millimeters. The component features a silver-colored metal shield on the left side and various electronic components, including a large black integrated circuit (IC) in the center. The ruler markings range from 0 to 100 mm.
<p>Antenna View</p>	<p>WIFI/LE Antenna</p>  A photograph of the same green PCB component, viewed from the opposite side. A red rectangular box highlights a specific area on the left side of the component, which is labeled "WIFI/LE Antenna". The component is placed on a blue surface. The highlighted area shows a small, dark, rectangular antenna structure.
