Re: Technical Justification Letter Pertaining to FCC ID: A3L62230ANH, IC: 649E-62230ANH

Gentlemen:

This is to justify 802.11abgn 2x2 + BT 2.1+EDR PCI-E Minicard, Model Name:62230ANHMW is installed in a different portable host, model number: XE700T1A .There is no change on the module hardware and the antennas used in the portable host is the same antenna type as the previous with less gain by comparing to the certified antennas included in the original modular approval, and output power remains unchanged. Radiated band edge measurements were evaluated at the worst configuration/position. Therefore EMC tests are not performed.

If you have any questions regarding this application, please feel free to contact me.

Sincerely yours,
