Connecting to a PC

Perform the following:

- Send files from Data Folder of 707SC
- Receive files from the PC and saving them to Data Folder
- Perform packet data communications

Before Using the USB Connection

Before connecting 707SC to a PC with a USB cable, you have to install the USB driver and the Samsung PC Studio. For more information about the installation procedure, operating conditions of a PC available, etc., see the User's guide in the attached CD-ROM.

Connecting to a Printer

Connect 707SC to a PictBridge-compatible printer with a USB cable and directly print still images from Data Folder. Alternatively, set a paper size, number of copies, and other items from 707SC.

For more information about printer operations and paper setting, see the printer's User Manual.
