Bluetooth® is a registered trademark of Bluetooth SIG, Inc. worldwide.

- Please read this manual before using the device to ensure safe and proper use.
- Images may differ in appearance from the actual product. Content is subject to change without prior notice. You can access the full user manual for more information. Visit www.samsung.com to view device information, the user manual, and more.
- The mouse is compatible with mobile devices and computers running Android 4.1 or higher or Windows 7 or higher.

Device layout

a	Scroll wheel	e	Sliding cover
b	Right button	f	Charging port
c	Notification light	g	CONNECT button
d	Left button		

Charging the battery

Before using the mouse for the first time, you must charge the battery.

Open the charging port cover and connect the mouse to a computer or the USB power adaptor via the USB cable.

-  You can charge the device using the charger (sold separately).
- The charger should remain close to the electric socket and easily accessible while charging.
- The socket-outlet shall be installed near the equipment and shall be easily accessible.

Turning the mouse on and off

Turn on the mouse by sliding the cover open. Close the cover to turn it off.

-  When you turn on the mouse for the first time, it enters Bluetooth pairing mode.

Connecting to another device

1. Press and hold the CONNECT button for more than three seconds.
The notification light flashes red, green, and blue and then the mouse enters Bluetooth pairing mode.
2. On your other device, activate the Bluetooth feature and tap **Samsung Bluetooth Mouse** Slide from the list.

Safety information

Read all safety information before using the device to ensure safe and proper use. To view the full safety information, refer to the Samsung website.

Use manufacturer-approved batteries, chargers, accessories, and supplies

Do not touch the device with wet hands

Do not drop or cause an impact to the charger or the device

Do not store your device in very hot or very cold areas. It is recommended to use your device at temperatures from 5°C to 35°C

Prevent the multipurpose jack and the small end of the charger from contact with conductive materials, such as liquids, dust, metal powders, and pencil leads

Do not allow children or animals to chew or suck the device

Do not disassemble, modify, or repair your device

Correct disposal

-  This marking on the product, accessories or literature indicates that the product and its electronic accessories (e.g. charger, headset, USB cable) should not be disposed of with other household waste.
This product is RoHS compliant.

-  This marking on the battery, manual or packaging indicates that the batteries in this product should not be disposed of with other household waste.

Removing the battery

- To remove the battery, you **must** visit an authorised service centre with the provided instructions.
- For your safety, you **must not attempt to remove** the battery. If the battery is not properly removed, it may lead to damage to the battery and device, cause personal injury, and/or result in the device being unsafe.
- Samsung does not accept liability for any damage or loss (whether in contract or tort, including negligence) which may arise from failure to precisely follow these warnings and instructions, other than death or personal injury caused by Samsung's negligence.

1. Turn the mouse over and remove the protective tape from the bottom of the mouse.
2. Loosen and remove the two screws.
3. From the side of the sliding cover, use a flat-edged tool to pry open the bottom part of the cover.
4. Slide the cover open. Then, loosen and remove the three screws on the metal connection.
5. Lift the metal connection plate off the two locating pins and remove the top part of the sliding cover.
6. Turn the mouse back over and from the front of the mouse use a flat-edged tool to pry open the button panel.
7. Loosen and remove the six screws along the border of the mouse.
8. Pry open the cover to gain access to the circuit board.
9. Use wire cutters to cut the wires between the battery and the circuit board.
10. Pry the battery cover loose from the two connection points and remove the battery.
