## FCC Class II Permissive Change for FCC ID: A3LEPN5200

This is to request a Class II permissive change for FCC ID: A3LEPN5200, originally granted on July 17, 2019.

The device is identical to the previously certified wireless charger except for the modification following:

<Frequency Range&Power>

| Before                                                      | After                                                                                                           |
|-------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------|
| 1. F: 127.7 kHz $\pm$ 1 kHz<br>1.1. P: 4.5W, 7.5W, 12W, 15W | 1. F: 127.7 kHz $\pm$ 1 kHz<br>1.1. P: 4.5W, 7.5W, 12W, 15W<br><br><b>2. F: 120.5 kHz</b><br><b>2.1 P: 4.5W</b> |

First of all, we, as the manufacturer of the device, declare that the device does not place on the US market.

We also confirm when charging certain model, the device has ping transmission at 127.7 kHz and then wireless charging function operates at 120.5 kHz. There is no hardware change as well.

\*Conclusion: The device is still in compliance with the part 15 rule, then a Class II application is required.

Sincerely Yours,

---
