Subject: Re: Questions Regarding FCC ID: A3LGTS5570L

Dear PCTEST TCB,

Please find revised SAR report and EMC report.

We need FCC grants for GT-S5570L today.

We'd appreciate it if you would issue FCC grants today.

Best regards,

Ducksu Kim.

Title : Questions Regarding FCC ID: A3LGTS5570L

To: Mr. Geoffrey Ham / Samsung Electronics Co., Ltd.

From: Mr. Stephen Liu / PCTEST TCB

RE: FCC ID: A3LGTS5570L

Applicant: Samsung Electronics Co., Ltd.

Correspondence Reference Number: A3L0001

Confirmation Number: 1Y1101030001-04

Date of Original Email: January 6, 2011

Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. Page 3 SAR Report - please amend the WLAN frequencies to the correct range.
2. Page 24 SAR report - appears to have copied the 850 conducted powers in the 1900 section. Please amend to show the correct 1900 MHz conducted powers.
3. Page 30 & 32 SAR Report - please remove "w/o holster" for hotspot tests since holster only applies to body-worn SAR measurements from the header and the data table and note 6.
4. Page 30 & 32 SAR Report - please clarify the number of GPRS Tx Slots for cases not indicated by 1) and 2).
5. Page 33 - 36 - please clarify the WCDMA configuration tested for Body SAR (i.e RMC 12.2kbps with HSPA inactive, etc.). Please also re-label header called "bar" to "Position" for some tables.
6. Page 37-38 SAR Report - note 10 indicates testing was done at 5.5 MBps, but should be 1 MBps. Please amend typo.
7. SAR Test Setup Photographs show hotspot tests were performed with earphones. Please clarify the test setup for hotspot tests, as the hotspot tests should not include headphones. Please re-test if necessary since the headphones may produce a SAR result lower than that without headphones.
8. WCDMA RF Report - Please update Page 7 reference. It says May 2006 which is an outdated reference for FCC 3G Measurements.
9. WCDMA RF Report - please amend Page 15 removing Release 6 references. Please address Cell band HSDPA Subtest 1-2 measurements that show some power reduction more than 0 dB.
10. WCDMA RF Report - The emission designator is incorrect. Please update Page 3 emission designator for WCDMA850 to "4M15F9W".
11. FYI - for future hotspot SAR plots, please orient the zoom scan so the contours on the slices can be observed on the plots.

The item indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,

Stephen Liu
