SUBJECT: Samsung Electronics Co., Ltd.
FCC ID: A3LSCH611
731 Confirmation Number: EA95001
Correspondence Reference No.: 10783
Request for Additional Info.: 11/23/99

Dear Frank / Kwok:

Per our meeting with Mr. Rich Fabina and Mr. Kwok Chan today, submitted herewith is an amendment in response to your e-mail dated November 23, 1999 requesting additional information for the subject application.

1. We have retested the SAR for body-worn configuration at PCTEST Lab. Please find attached new SAR test data and test setup photographs for body-worn configuration using body holster.
2. The revised warning statement to be placed in the users manual is as follows:
"For body-worn operation, the phone and antenna should be kept at least 1 inch from the body when transmitting, to comply with FCC RF exposure requirements. An optional holster/belt-clip is available as an accessory. Users are cautioned that the use of non-tested accessories may exceed FCC RF exposure limits. Please contact your local dealer for optional accessory information."

Samsung Electronics Co., Ltd. hereby confirms that the above warning statement will be implemented at a prominent location in the users manual.

3. Please note that we have authorized to change the technical contact person and test lab to PCTEST Engineering Lab.

If you have any further questions regarding this matter, please do not hesitate to contact PCTEST Lab at (301) 596-2120.

Sincerely,

A handwritten signature in black ink, appearing to read "Ben Kim", written over a horizontal line.

Ben Kim
Engineering Manager
Samsung American QA Lab
