Dear Gregory Czumak,

The concept of SCH-B119 is a Ultra Low Cost Mobile phone, so there is no USB cable and headset in accessories.

Normally IF Connector(S20) port can support Charger, USB cable and headset, but it is only for the charger of B119.

In B119 manual, USB function is not mentioned and USB cable is not in a product box.

USB data transmission is not supported for users and there is no Software program installed on the PC.

Previously mentioned, the port is available for R&D debugging and charging a battery.

Best Regards

Geoffrey

Title : RE: Questions Regarding FCC ID: A3LSCHB119

Dear Mr. Ham,

Thank you for your email. Will the USB port be present on the units marketed? If so, what would keep a user from connecting it to a pc? Is the port disabled in production units? Or removed completely? (In that case, testing should be performed on a unit without the port, to determine if its removal is classified as a Class I or Class II Permissive Change). Please clarify.

Dear Gregory Czumak,

The USB port is not for User. It's only for debugging in R&D team.

Best Regards

Geoffrey

Title : Questions Regarding FCC ID: A3LSCHB119

To: Mr. Geoffrey Ham / Samsung Electronics Co., Ltd.

From: Mr. Gregory Czumak / PCTEST TCB

6/26/2009

RE: FCC ID: A3LSCHB119

Applicant: Samsung Electronics Co., Ltd.

Correspondence Reference Number: A3L90763

Confirmation Number: 906170763

Date of Original Email: June 23, 2009

Subject: Request for additional information

In regards to your recent TCB application referenced above, we kindly request that you provide the following additional information.

1. The external photos and the Block Diagram appear to show a USB port. If this is correct, then the EUT may be connected to a pc, and is, thus, considered a pc peripheral, subject to authorization. Please address.

The item indicated above must be submitted before processing can continue on the above referenced application.

Sincerely,

Gregory Czumak
